

# Lumiere

## Designer Metallic Epoxy Flooring System

### Create gorgeous, highly-durable, designer floors with a contemporary look.

Lumiere Designer Metallic Epoxy from Düraamen is a decorative, deep-shine flooring system engineered to provide a uniquely beautiful, long-wearing, low-maintenance floor over concrete. It consists of our ultra-durable resin products and beautiful metallic color pigments.

Lumiere yields a deep mirror-like finish without the grinding and multiple application steps of polished concrete. A beautiful, trendy matte finish can also be created by using one of our satin top coats.

### Designed to be Beautiful

- › Breathtaking deep-shine appearance
- › Single or multicolor installation
- › Get creative or match decor through color mixing; or use our suggested color combinations
- › Completely seamless for wall-to-wall beauty

### Engineered to Perform

- › Moisture resistant
- › Stain resistant
- › Wear, impact and abrasion resistant
- › UV resistant so colors won't fade

### Maintenance & Safety

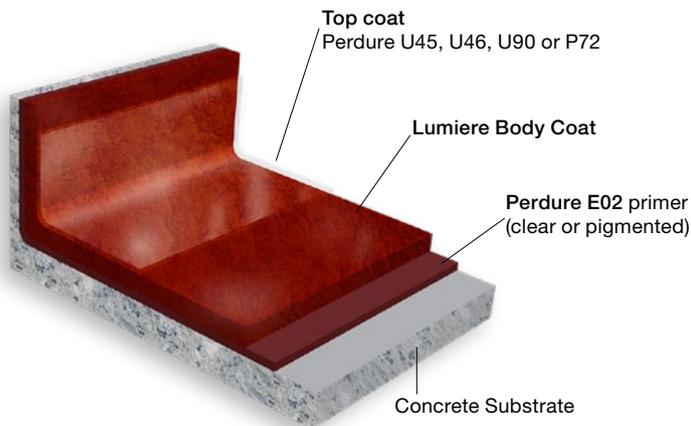

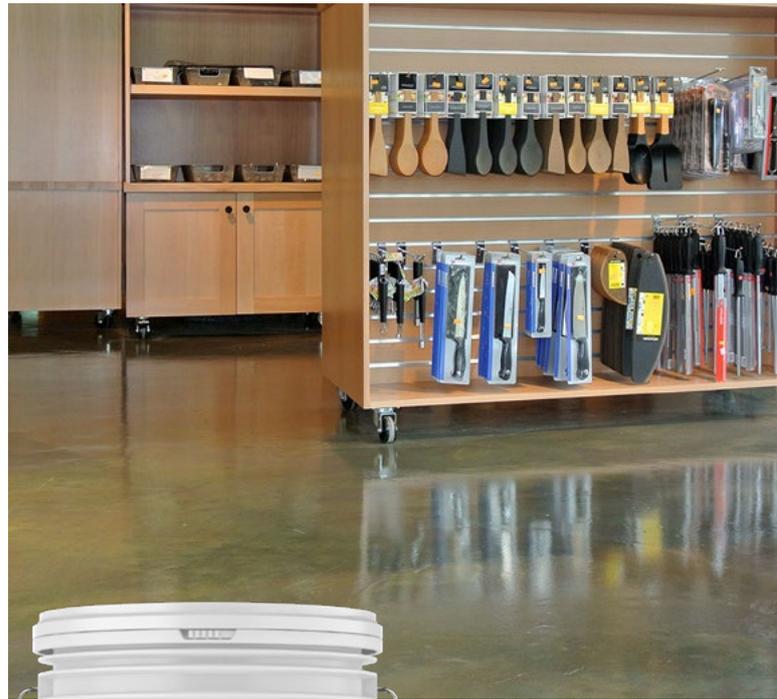

- › Very low maintenance
- › Slip resistant finishes available

### Sustainable

- › Nearly 100% solids content
- › Zero VOC's when using a urethane top coat
