

# **Pentest-Tools API Setup**

## **What is Pentest-Tools API?**

[Pentest-Tools.com](https://pentest-tools.com) makes it easy for security teams to discover, exploit and report common vulnerabilities while saving time for custom work and more creative hacking. Setup an acct:

1. Hop over to: <https://pentest-tools.com/pricing>
2. Sign up for a Free account.
3. Continue with your desired method of account creation: Email, Google, Microsoft
4. Enter requested minimal information to get the account.
5. The system will email you a confirmation code.
6. Enter that code and you're done; you have an account.

Find your API key by:

1. Free account does not allow API access So skip.
