Clear Zone & Streetlight Permitting 1776 Peachtree Re-development, Atlanta, GA

As the consultant for the developer, we assisted in obtaining approval and permits for the installation and acceptance of streetlight installation and operation from the City of Atlanta. Review and commented streetlight and landscape plans prior to submittal to reviewing agency. Managed clear zone requirements by Georgia Department of Transportation and secured contractor to remove obstructions in clear zone area and developed plan to upgrade pedestrian signal and overhead electrical cables.

Assisted general contractor with City of Atlanta requirements for approval of streetlight installation and operations. Represented developer when meeting with City officials and other personnel.
