Transportation Management Plan – Buckhead Place Market, Atlanta, GA

Developed a transportation management plan for the Buckhead Place Market located on Piedmont Road north of Peachtree Road in Atlanta, Georgia.

Traffic Solutions met with personnel from the City of Atlanta Department of Planning to obtain the status of the initial report submitted. Based upon the review comments, a new plan was developed consisting of an overview of the project including work zone limits, maps, background information, proposed affected roadways and neighborhoods, project schedule and staging locations. The plans also included the roles and responsibilities of the TMP team along with their contact information. The plan included an assessment to identify potential risks and mitigate problem areas that may occur during the project development.
