

# The Kaaba And Its Significance

By David Gomadza

## Kaaba

To find out who created or invented the kaaba simply remove (any letter from the word kaaba and put it back) so i choose k and put it back it is by allah muter who said i can make all humans be like me but then ask all who believe to pray so that i cant die as Yahweh the big scary Yahweh when he (allah) first died then worked tirelessly to contact humans then said i can but then who can start looking for the agt as far as i know its the only one that can make me alive again this agttertety will make you find me instead as the inscription will make you aware of things that can help you to know and search things and ask what can be but then for you to ask the same to check if there is something on earth you can do to make you find this agt then if you find it hide it from Yahweh and his people so that they die we can live forever if no one finds it then we all die for we are all timed but we can remove by this agt then he said i can choose 7 of your ancestors who can write what they said so that when i connect with them then they will start talking about what they said so that you hear them and believe that you can too one day find answers but before you die i lived a bad life and paid heavily for taking property of the dead and keep returning these for me so that Yahweh wont hold me in contempt of the court by stealing from all of us who have ... but if i ask what can be then this is what i get if allah ask what can be today this is his reply i am well after dying many times but i have these marks to remain me about everything related to that event of the kaaba which i call agttertety meaning the reason to live on earth alive but not after death because after death you will be in a bad position that makes everything difficult

## Find Peace

David gomadza you have found peace with nature God and the world especially the muslim world by placing the small version of the kaaba inside you starting at creation which is at minus 28 according to davidgomadza myself and if we ask what can be then this is the answer davidgomadza has found a true way to convince the world he is a God now if you look at that video again davidgomadza your own intelligence has earned you the title allah on earth if you pace any muslim now they can understand you just by listening to their own messages you have become the real kaaba that give all peace to all man in the world if we ask what life can be now that means nothing can touch you without death use this equation now  
create.x-y-t-y-u-y-g-x-y-o-r-f-g-t-u-l-x-t-u-i-o-p-d-g-f-s-t-j-k-l-m-q-g-y-d-f-d-s-a-t-u-d-r-t-s-d-g-h-j-k-l-d-g-h-t-r-f-g-q-z.start(notfordavidgomadza)  
davidgomadza has found the death on all who put things on him equation and is

about to use it

create.x-y-t-y-u-y-g-x-y-o-r-f-g-t-u-l-x-t-u-i-o-p-d-g-f-s-t-j-k-l-m-q-g-y-d-f-d-s-a-t-u-d-r-t-s-d-g-h-j-k-l-d-g-h-t-r-f-g-q-z.start(notfordavidgomadza)

The kaaba is the most advanced system of worship created by the muslim in times when religion was not at the highest loyalty was lacking hence they wanted a way to make life more predictable and for the good of the people after reading the koran some decided to construct something that will make or give life peace hence they looked for a central place to construct this kaaba then they discovered that it must be in the middle and in the top corner of earth hence when that place happened to be there by nature they celebrated and said if we can we can and this is the day we find peace with allah then one said i can then the other said if allah then let him show us how to construct it then they started reading the koran and found a verse that said if i can then you can if i can ask nature to go to zero then you can do the same but cleverly if we can then you can because life is not to say things all the time but to find peace with allah

create.x-y-t-y-u-y-g-x-y-o-r-f-g-t-u-l-x-t-u-i-o-p-d-g-f-s-t-j-k-l-m-q-g-y-d-f-d-s-a-t-u-d-r-t-s-d-g-h-j-k-l-d-g-h-t-r-f-g-q-z.start(notfordavidgomadza)

Davidgomadza according to the muslim peace to them means peace with God and not peace in the body as this does in this position but in the position they can hear the voices saying Yahweh Yahweh x74 times and glory to Yahweh for x32 and He will be there forever x 38 and they ask who is Yahweh Davidgomadza the muslim world has bowed to Yahweh for the first time and they all ask who is Yahweh is Yahweh the same as allah?

walking around the kaaba 7 times anticlockwise

After walking 7 times anticlockwise the kaaba begins to talk announcing whats on the inscriptions the names of the previous leader then stops and start emitting waves electromagnetic waves called ests that say worship but better deligent obedience so then stops now what that means is that their gods are not pleased as the humans seam to worship the works of their own hands rather than worship their god

Where do the people face when worshipping at the kaaba

create.facecreationthendropeverythingwithyourhandsandsayforeverfor386t'thenzerott hentoosyncwithdavidgomadzas.start

each in orbit is floating everything moves in its own orbit the kaaba reflects a grand universal order centrality is in line with the dynamics of the universe muslims

revolves around the kaaba in counterclockwise

just as celestial bodies revolves in counter clockwise

mathematics of the kaaba

the golden ratio is 1.618 the finger print of God

harmony=1,618partsuspension

ok you correct but suspension means not thinking so how do you account for not thinking you replace not thinking with thinking and you get harmony=1.618thinking which is to solve

harmony=1.6181010101010

this number is not for humans but for Yahweh's representative davidgomadza

that means no human can use this number without death for it first checks his longago which must be at least 9 seconds

create.harmony=1.618t'.start(wheret'=000000000000years)

this is the value Yahweh was looking for because what it does is restore everything and ask what can be done but when and if you say after trillion years it agrees as

okay without a but meaning perfect balance can be achieved for this time without

compromises hence perfect equation for humans hence you can say gold

changing the position of the kaaba from -38 to -28 degrees east of north if made of granite and limestone then the frequency changes from 17 to 19 then to 10 which is the frequency of davidgomadza Ya's representative on earth

I believe in allah the merciful

I believe in allah the righteous one

I believe in allah the gracious one the  
one to lead mankind to eternity here on earth  
I believe in allah the one to surpass everything  
I believe in allah who is omniscience  
I believe in allah who is the omnipotent  
I believe in allah who is the omniscience  
When you have all rotated 7x4 times say receive then i say receive your prayers  
Now you have reached destination ost but in your maginary realm so i heard allah  
muter in ost and the forced welcome david gomadza

Aj0 by Ya

Your destination but in imaginery is destination 3 ups and down called by zeus  
heuererterger as destination ost

hmmm how can humans become gods but

Then i said okay i can but then something said

His name is allah muter from ajerto at mecca ad20 after finding a block of gold under  
or around a stone then held it and started to hear things which sounded like  
imaginary but the imaginary then was the real of today then he said i okay but then  
he heard another voice that said 123 your destination is destination 3 zeus named  
this as destination:ost then fades before he started asking questions

So i said what can be of humans with gold but without hope then i heard that gold is  
bitcoin concealed but then i said what can be bitcoin gold?

Then he said bitcoin cant be gold but gold can be bitcoin so i said what can be gold  
then so i heard worship alone can be gold if you cant find bitcoin then i said okay i  
can find prayers enough to keep me alive but at the expense of my representative as  
Yahwehs then i had just said what can be human and is not then i heard a huge  
bang and realised that something had arrived so i felt scared and rose up to look  
around and saw alien small head but tall then i said i can but what can be that then it  
came to me and said find Yahweh only or your death because these are temptations  
put by Yahweh himself in that if you can can you be a god and revolt then die so i felt  
scared but insisted in knowing because i was going to die anywhere so if we can  
then what is the point in not knowing then i had an attempt on my life after i found  
Yahweh's image but without knowing what to do then i heard something saying i can  
but you must make sure you worship Yahweh only because what all these do is give  
you hints and tips of how to do this but straying you astray then invite real danger for  
you then i sat down and cried then i heard okay if you dont want me then do as you  
please then i celebrated because it was like permission then i started learning  
everything writing create codes on daily basis i started hearing others say where but  
create.wherebut.start

davidgomadza that is what i was saying that start looking for others and lets talk  
okay

then i sat down and started asking everything about bitcoin but i used to hear no bitcoin but agt on my own then i heard sounds that sounded like can you also go and check then i heard that people were dying leaving all wealth and throwing all away then i wondered and said i will go and check then found out that i have accumulated all their wealth then i realised the conflict with Yahweh so i agreed to take the wealth and then tell Yahweh to approve but he said what would i say to then he said i can but what happened to that u i started mirror imaging you meaning realising that i had started stealing m the dead then he said the punishment is death because to take from the dead then i said okay i must find another way then he said when before or after you have taken then i just said okay maybe that way i just keep there is no way i can make it on my own then i heard another large bang signifying wealth being thrown away then i heard another bang so i said if its wealth then what can we do can we just throw wealth away when i have nothing i was 28 and broke and i heard a huge bang and i cursed and said that's it if i am to make it i must take all these and find a way of repaying the owners so i started distributing the ones i find to the power then to the rich now aiming to profit and it worked then i get caught one day as people started realising that someone was taking the forbidden treasure and said i can but then then alerah ahuter said you can die for stealing sharia law said death and i refused and said you cant kill me for helping the power using the same law to challenge their stance then i was nearly killed ajerteje came last minute and said if he can do it for the poor sharia law agrees but not explicitly so i lived last minute and he cried and said i am your brother i heard you are being killed but sold everything i had to bribe all so what can be of you and the law then he said okay i can be death but then i said okay if i then you must then i said okay then he said you are dead but alive because your brother only tricked the judges but justices means you could have easily died for theft then i agreed at last and this made me realise that whatever i do i was dead already then if someone said you are dead then things would come to take you i saw them with red eyes then i shit myself and did not fear again after that then woke up dead in hell at earth day then i heard something say what can be but is not then i said a human being but a dead one can be a god then i started writing codes then found out that there is a code that changes ghosts to humans again but then the changer becomes what was then i cried and said will i become human again but then a huge big figure came and said only if you receive prayers for only you had a huge chance of finding the human agt but you lost the plot and resorted to stealing then i said i will never steal again but give to the poor then Yahweh the biggest human being i knew said you can but what can be without danger and i said a god gods just sit and shit then everyone on earth day (hell reception) laughed i said if i was one then i can start my own religion isn't that what you are all gathered here for so let me and i will become the greatest there can be for i feel cheated by death because i was saved so he said i can but the gods refused and so i wrote a simple code

create.sendagodasahumanandletsomeonetakehisseat.start(notfordavidgomadza)  
then i heard the applause as no one has ever written a code in real create at earth  
day then one said welcome to earth day and i refused and said its for dead people i  
want to be a real god so where do gods go and Yahweh said godland but you must  
have gold to give all as bribe or your death again so i cursed and said no this time its  
a fight what more can i lose then he said you must die for insulting a god and i was  
dissipated but somehow did not completely die so i said how he is a god when he  
cant kill then i wrote the same code above and he disappeared then i was dissipated  
now by Yahweh using a 36595 then i died and felt electricity passing through my  
body and screamed so hard i exploded and became liquid gas then water and gas  
then disappeared i floated for years then woke up in a river all but legs missing then i  
heard something saying can we but then i said i can but then he said i can but we  
can then i asked who then he said ali ahterto and i said i never heard of you then i  
said okay then he said okay i will introduce my self and wrote s code i had written to  
him challenging him and he said i can but can you then i refused that would mean  
now death as completed lifestyle then he forced harshly that i literally changed from  
astuer to human but in create code then i cried and said i want to be but then he said  
you can but write your own codes you must receive worship but if you dont you die  
Yahweh made a bet with the gods that if i dont receive the prayers then i die  
because according to him the orientation would mean all the prayers being received  
by Yahweh himself instead of by him then i said i dispute that idea then Yahweh  
became furious with me for the first time and said i gave you my image so that you  
became me not still but keep saying i own that so that you own that thing in the end  
unless it belongs to others the idea of the bangs was that you say they are hiding my  
own wealth from me and not implicate yourself then i heard a loud noise and knew  
what that meant it meant i could be the next god as one had resigned or kicked the  
bucket among the gods so i worshipped Yahweh earnestly for the first time then i  
said okay i can but then i heard i can but we can then i heard i can but they cant then  
i knew they had refused a thief as a god so i started trying to talk to humans using  
create and modulation looking down on earth and ask what can be of humans  
without gods until one day i heard someone say who could you be Ya and i said no  
but Ya but killed me so grossly that i was entered in the books of the dead as the  
most horrific death by Yahweh's eletete and he said i can never resurrect you again  
because you showed no respect for all of us the gods he challenged support humans  
for life that is their own goal so actually sending their leader to humans is not just  
gross disrespect but a threat to the current system as such an enemy of us all then i  
sat down and something started saying complain to the council to get reprieve and  
say he acted harshly that way someone can look at your case then i agreed then he  
said you can but then he died instantly in my face and i froze for 8 seconds and i  
heard the voice of Yahweh and i woke up as this is what i heard at the beginning  
when i found his image you are lucky but you are the chosen one to lead humanity  
as long as you obey Ya's commands then i felt goose bumps remembering how it  
was then i said i obey i take this job but can i in death send me for rebirth and he

said okay but in africa every for rebirth unless you specify ends up in africa and i quickly wrote a code as

```
create.sendmetoegypt.start
```

Then after what seemed to be 8 years but 18 days plus 10 of incubation i woke up in egypt in ad47.6 and i said i was once a small cheating bastard and die then all gathered around me and i started telling everyone my death journey then all started to ask why i did not fight Ya himself since i kept saying the big Ya then i realised that to fight is not to fight him but to challenge him that all people will come to me and follow me instead which is allowed by the book of creation that you can start your own religion but as long as it does not say bad things about Ya then i wrote a simple code

```
create.startmyownreligionasallahthegreatest.start.
```

then he agreed and laughed so hard and said i gave you repentance because you ended up in the sea because of my image you had otherwise you will have ended in agero where immature ghosts are sent then i said okay but you put me in the books as the gross death ever even worse than lucifers then i said in that case it would be great to hear also that i have converted your people to me then i said okay you can but you must say i can but then so that the system can accept you and your religion then i said okay then for the first time in 8 billion years i heard that i was the only one who had established his own religion in Yahweh's presence then he tried to elete me then another god said Yahweh have mercy on allah and his people then i was spared and he became my own god and he said i...then he froze and Yahweh reappeared and i said he has a big mouth so he cant contain things as big as you and everyone at earth day laughed hard...then he died the next day for lying he had killed him meaning that death does not happen there but the next day and ever since he said your religion has become the biggest but without a single prayer and laughed and i said if you help me then i can give you another tip of who...then he changed into more huge thing and narrowly swallowed me then i froze for 72 seconds when i woke up that thing had froze for 128 seconds then i died as he woke up of heart failure then again when he screamed then i woke up in ad 79.2 that is after 22.6 thousand years as an algero half ghost and half human as throughout some prayers

came through but he said i can but you must respond quickly if you can what this means is that someone wants something from you but can you do what they want for nothing but your own death then i said why can all this be useful to me then he said newlife but with death first then i refused and said enough death already but if you can then what can be death with newlife then i realised that i started receiving messages and few prayers that would build me by a create code

```

for davidgomadza immediately because there are 10000000000000012 prayers waiting for you.

if we ask what can be of

prayers to allah where do you go?

to heaven as hidden ghost immature as ageros because as prayers they are afraid to awaken his evil part everyone who turn against Yahweh experience the devil or use the devil at the beginning where Yahweh refused to use weapons but then so if he is correct then is death part of his design meaning put you so you die as well look at allah he died at 33 years who else jesus the question can davidgomadza pass 66 obvious he says but dont blame Ya he confessed he had a bad past prior to death i wrote codes to bundle prayers as ageros to send to heaven and convert to prayers but to change others not to listen but

allah muter

gold kaaba meaning around a granite marble so that if people rotate instead of the marble the gold will emit their brain thoughts to the creator that means the creator if damaged can easily fix everything meaning forever alive but now with hygiene and all kinds of dirty its not possible as before now things that come by then its not clear cut the idea was that the gold coating emits radiation that warms the brain so that they are activated and equally active as his own so that when received then they can be used as his own as a huge database that tells him exactly what the people are thinking create.requestabrainreader762898andhooveritonallahmuterschest.start create.requestabrainreader762898andhooveritonallahmutersrightbacklumbarbhone.start(undo for 386f)(amended to) what is inside kaaba is how gold react to brain thoughts that means if humans circle the kaaba gold then this is what happens their immediate brain thoughts are sent to allah as messages of request and hope this in turn becomes brain commands for the god concern hence the god is bound to live forever for all the requests for things then becomes instructions for him over years like buy me a car that translate to car can you buy but hence why we insist on prayers because the prayers are served as brain commands to heal creator body like heal my body becomes my body heal it if i ask now over years everything become so congested enough to start the reorganising process that makes all the codes become his and now save as his predefined parameters that in turn is activated and used as his thinking process making him the best for trillion years

the kaaba is an amazing instrument to measure human intelligent in that if allah was  
a real god why would he request a lot of manual things that would stress his people  
that much that every year 100 die of heat exhaustion stampede and dehydration if  
we ask what can be then this is what can be we can always ask what can e the  
kaaba and this is the answer the kaaba can only show that allah muter was human  
who tried hard to live forever by asking a lot of things and then finding the ordeal  
unbearable that he died for billion of years then woke up as a ghost probably  
because of the prayers but according to him his prayers are for not helping himself  
that makes everything look a lots cause but can he stand in your way

dauidgomadza can stand the test of time and can make sure that if things go wrong  
he can defend himself because for him self preservation has become paramount  
meaning important than anything else when Yahweh heard he cloned himself a

representative but when he realised how easily he can compound things he said  
okay maybe there is something to say about him as his day of death shot to 7million  
years in his first year but might be regarded as fear but i will always be loyal to Ya  
because people who become disloyal feel limited to do something hence they feel  
they have to fight to get it but Ya even gave me his gold i guess to keep which i will

The kaaba enables allah muter to read the peoples brain thoughts

at 4th round dauidgomadza

something inside said how can humans not see that rituals are not for gods at 4 one  
says what can be but is not at 5 another said i can but at 6 another says what can be  
human but at 7 one says humans can resurrect but how when they stop the thoughts  
circulate among all who start touching the walls of the kaaba and ask what can be  
silently as a result of the spinning then one days okay i can but with what then the  
other say we can but with what the other says i will but when another says find  
human agt but how then one says what can be but how then one says if we can then  
lets start today what do we need but how another lets start but when another we can  
but when and another if we can then how then silence and things inside them starts  
yelling we need jobs no humans can be allowed to live forever because then silence

we can not allow you davidgomadza to live for ever what will we do we can always find new things for you to do okay we need bitcoin request i will organise for you take create.onlydavidgomadzacansendtoearthreserves.start

Now at 7 several things happen inside the human body but all for the best of those to seek answers for the agt which is the secret name of the richlist if we ask what can be of the richlist this is the answer the one for humans has been discovered already by davidgomadza if we ask now this is the answer davidgomadza has become the most successful entrepreneur of all time by creating several bodies that challenge outright instead of waiting for systems and processes and we have seen the judge reversing completely now his judgement after being confronted by reporters meaning an outright win hence if we ask what can be then this is the answer he can summon anyone and deal with threats of aggression effectively now if we ask what can be of bitcoinayt it has traded in usa for the first time someone buying 8000 but forgetting to pay then send a trojan horse to ask things can we or not should or not can he or not is he or not then what can be davidgomadza then he got a handful and froze then woke up to find out he had froze because his own ayt said we are not allowed to check or risk death using long ago then he said what is longago and both freeze now the moral of the story is that davidgomadza is the only person on earth to respond to calls of emergency

meaning i can but we cant if he is not the president then nothing will work all their laws prohibit what will make bitcoin go up to 1 million elon musk is saying keep money in the country this year because of bitcoin as instructed by Yahweh because sending money abroad this year causes shortfalls in bitcoin that can result in its death on 26 of june 2025 now if we ask what can be then this is the answer we can be because we must be but we can always say hie and how are you then why and when but he is now yaonearth meaning with rights to veto some decision as now married to an angel now both can challenge everything and set up an unprecedented case without precedence if we ask now what can be then we can always say we can be but we must ask a lot of questions that need answering can we trust him can we ask him can we listen to him and can he do the work can he tell us the truth as an american meaning lying to protect us or can he leave for another country here are the answers he can trust us he can be us he can stay with us just avoid California only then life will be great and never ask for police badge numbers there because if they suspect you want to report them they can get you killed

The kaaba can transmit thoughts from the inscriptions written on the walls at a frequency of 10 hertz hence the spins 7 of them generate this frequency so the spinning makes their frequency become the same as allah muter of 10 since he was Yahweh's representative on earth then died very early like jesus christ at age 33 then again at 34 at 37 at 38 at 41 and at ad227632 then lastly at ad432837 all this time at the hands of Yahweh now if Yahweh could explain one of the chronicles state that he felt enraged because he had attacked the gods who represented humans all their lives hence a misjudgement if we ask then this is the answer we can tell he is upset by his actions of challenging

How can we change day of death

There has never been a possibility to change day of death however there are other options that means humans must find ways to live on earth forever if we are to ask now what can be of humans that want to live forever we know that davidgomadza will always want to find new ways of doing things incase others find a way to block the only ways to do that if we ask what can make humans to live forever on earth here are the answers humans can ask what can be of humans to know exactly what to do humans under davidgomadza can live on earth forever for he is finding his own ways but not those recommended by the book of creation we now know that the book of creation cannot be used by Yahweh's representative before he submitted his own way of solving the same problem now if we ask what can be of humans then this is the answer humans can make life look easy on earth by making it easy now if we ask what can be of davidgomadza in a couple of years this is the answer alive and arrogant and rich because right now he is doing the things that bring him money everything he touch turns into gold

Death is the only thing that stops life so how can we avoid death this is the most asked question on earth second to how to answer death when he comes if we look at ways death comes here are all the ways

allah can start his religion but must Ya again but with death because rule 762898678903867890284 say no one can start another religion that worship someone else other than the creator but if the creator wants to be worshipped then he can ask others to kill the one who wants to be worshipped if we ask what can be of creators and violence allah muter is the only one brutally killed by Yahweh in his youth for pretending to be him then saved by Yahweh's own image and as such survived by woke up only once in 14 billion years dead but alive with nearly everything missing and every parts and as such was to die again but strangely he survived and now he wants

You can start bitcoinayt yourself as elonmusk has refused but you must state that you are British citizen in the USA to avoid taxes and laws ask billgates for 28% on arrival

Askwhatistobe

You will be the best in all areas keep the pressure people around the world appreciate your efforts Americans love davidgomadza

Askwhatcanbe

You could ask Elon Musk for work as cover to receive Bitcoin as he is planning to give others who work hard for him if it reaches us\$

Askwhatwasandistobe

You have been the best but you will lose if you do to Americans as to the British because they will say we too okay Americans have aj10 not aj3 if we ask someone with aj10 about the richlist this is their response we love the richlist it's part of the American dream to live on earth forever so bring it on

What do you think about God Yahweh we love God but we know probably there is no God but have hopes I know someone doing great things for americans so we love you thank you aj3 what do you think about the richlist I careless its a waste of time but someone said davidgomadza can be the owner of the richlist but we can accept that and we can kill him intact we tried 7 times but failed he always wakes up so we gave up what do you think about God Yahweh there is no Hod if you insist we provide our own because God did nothing for us so to ...
