

Object of the Game

Mermazing: Lucky Treasure is a family friendly kids game with up and active moments that incorporate simple kid friendly fitness challenges.

For Ages: 4+ | **Players:** 2-4 players | **Playing Time:** 20 minutes

Components: Gameboard, Spinner, 18 Game Cards, and 4 Gem Pawns

How-To-Play

1) Select a colored gem pawn and place it at the starting area.

Once all players select pawns, place them in the labeled starting area at the bottom of the game board.

2) Have the youngest player go first, then play clockwise around the group.

The goal is to get to the end of the Lucky Treasure path.

3) Take turns and spin the wheel to move your pawn to the # amount of spaces along the path.

There are a variety of prompts along the path that can be helpful to 'get ahead'.
For example:

- If you land on a starfish icon then the player is challenged to do 10 "starfish jumps".
- Complete the task and move ahead as instructed -or- don't accept the challenge and stay in your space until your next turn.
- If you land on a bottle icon then take a card and follow instructions.
- If you land on a coin or skull icon, follow the prompts.

4) When you are close to the end of the path, near the Luck Treasure title, players must spin the exact number of spaces to cross the winning line. If not, the player must wait to spin again on their next turn.

- When a player reaches the Lucky Treasure **the player must shout "Mermazing!"**
If the player forgets to shout "Mermazing!" they must go back to their last space.
