

Notice to Genesys Autopilot Dealers

June 10, 2026

Subject: Legacy fixed-wing autopilot repair sunset and transition summary

Dear Autopilot Dealer,

Production for our legacy product line including System 20/30/40/50/60/65, was sunset as communicated by SIL 22-017, dated July 6, 2022. At that time, repairs for legacy parts remained available. This letter is to inform you that as of September 30th, 2026, all legacy repairs will no longer be available. Effective immediately, items repaired will come with a 90-day warranty. This letter supersedes any previous communications on our legacy systems.

This change marks the completion of our fixed wing general aviation transition. I would like to take this opportunity to thank you for the years of business and celebrate the S-TEC brand living on with Innovative Aerosystems. We hope your relationship with Innovative Aerosystems brings you future success.

To summarize the transitions across our product lines, I would like to highlight each of them for you here.

System 3100

- All new orders and support have transitioned to Innovative Aerosystems

System 55X

- Last time buy through June 30, 2026, delivery no later than September 30, 2026; 12-month warranty
- Non-warranty repair ends September 30, 2026

Legacy Systems (20/30/40/50/60/65)

- Repairs end September 30, 2026; 90-day repair warranty

Best regards

Nick Bogner

Director, Business Development
