Algo & Big Architect Faran Lodhi has conceived plans to create a forested Smart City in Winder, Balochistan, that is designed to be a "pioneer" of more eco-efficient developments.

Smart Forest City Winder is intended to be built on approx 1900 Acres site near the Winder city. It will contain 7,500,000 plants, including numerous species of trees, shrubs and bushes.

Smart Forest City Winder is a Botanical Garden, within a contemporary city, based on Baloch heritage and in its relationship with the natural and sacred
