Work Experience

Curtis + Ginsberg Architects

New York, NY
Sep 2019 - Present

Architectural Designer

Worked through all phases of the architectural process from pre-design through construction completion. Provided design and construction administration work on several building styles and typologies, ranging in size from 20,000 to 500,000 square feet, with a focus on PassivHaus certified multi-family housing throughout the New York City area. Directly communicated with clients, contractors and consultants to resolve problems and provide coordination through all design and construction stages. Worked with teams of various sizes to put together document sets with careful consideration of the complexities of the NYC Zoning and Building Codes. Conducted regular site visits of projects in all stages of construction, from kick off meetings through punch listing and project closeout.

iBuilt Group

New York, NY
May 2019 - Sep 2019

Architectural Designer

Worked on multiple phases of projects involving modular steel construction. Put together complete sets and details and coordinated with contractors on a variety of project types. Designed multiple iterations of modular homes to be developed upon purchase.

Florida International University

Miami, Florida
Dec 2017 - May 2019

Graduate Assistant

Managed multiple levels of Structural Engineering courses with over 140 students each working under Shahin Vassigh. Instructed multiple weekly lab sessions and led teams of other assistants to coordinate the class. Created exams and quizzes to test students knowledge of the subject.

Kraftwerk Competition

Shoppingen, Germany
May 2017 - Jul 2017

Head Designer

Worked as head designer for Thomas Spiegelhalter and Peter Drecker on an entry for a competition which participants were asked to redesign a street and its surroundings in Germany. The street was designed in Fusion 360, featuring complex organic geometries.

Education

Florida International University

Miami, Florida
Aug 2014 - May 2019

Masters of Architecture

Accepted into the highly competitive accelerated masters of architecture program. Graduated with a GPA of 3.91.
