OVALIS COLLECTION

A modular system that allows you to create unlimited compositions

The ovalis system is inspired by natural morphology taken to abstraction, maintaining an organic aesthetic. Ovalis is designed as a modular system that can be used for both interiors and exteriors. It has a system of spacers that gives the whole piece the feeling of floating over the surface.

Ovalis modules can be combined to create dynamic and unique geometric designs while keeping an orderly and harmonic scheme. Endless quadrangular or rectangular compositions can be designed with this system. This type of freedom and customization is great for architectural and interior design projects. Endless projects possibilities can be achieved given the geometric distribution and chromatic combinations versatility.

COLORS

We work with a rich catalogue of basic colors with matte and metal finishes. (+ 50 colors). If a specific color is needed for a project, we can also offer a complete catalog of colors (+ 300 colors) for specific projects.

Our team of artists also offer hand painted pieces for special art projects.
