Capabilities Statement

Providing effective business solutions through experience and technical knowledge.

Core Competencies

Vets United, LLC primary goal is to assist commercial clients, prime contractors and various Federal, State and Local Government customers with an array of services derived to solve and manage business obstacles.

With our experience and technical knowledge in areas such as fielding, designing, and managing program solutions, we're able to improve the processes of any company. We approach business problems with a multi-dimensional perspective in order to bring those critical resources needed to manage all administrative and technical aspects of any project requiring multiple disciplines.

Business Services and Solutions

What helps differentiate Vets United from the competition?

- ✓ The ability to constantly explore opportunities that will increase our client's efficiency and effectiveness.
- ✓ Our engagement with strategic partnerships that enhance the services and solutions we provide to our clients
- ✓ The recognition of being a committed and critical partner with our clients

We'll achieve this through:

- Role-Play Training Support and Simulation Solutions
- Translation and Interpretation Services
- Project Management and Support
- Administrative Support Services
- Medical Personnel Support Services
- Logistics Management Service
- Medical Claims Processing

With skills and service listed above, we are more than capable helping you find your business solutions
