HALDHAR MICRO-TRAC 750

Small Wonder of Power

Why Sukoon Haldhar Micro-Trac?

Powerful Battery:

Rechargeable, Pollution Free, Battery powered mini tractor. Small & Attractive, Sukoon Haldhar Micro-Trac is miraculously powerful. It can pull 2 tons of load effortlessly.

Dynamic Hydraulic:

It has strong hydraulic lifts at both ends, the front as well as the back. It greatly facilitates lifting and moving heavy objects. It not only boosts productivity but also lowers staff fatigue and injury risks.

Low Turning Radius:

The Sukoon Haldhar Micro-Trac has a very tiny turning radius due to its small size. It is therefore perfect for manoeuvring in tiny spaces such as factory floors, godowns, small farms, etc. Additionally, it has distinctive hand levers that independently lock its left & right rear wheels for extremely tight turning.

Massive Power Bank:

Sukoon Haldhar Micro-Trac is equipped with sizable battery options, making it essential as a portable electricity power bank in the case of an emergency, disaster, or power outage. For eg. emergency & flood lighting. The amount of power storage could range from 7.5KW to 20KW depending on the battery capacity option. From its power backup, Haldhar Microtrac can also operate small welding machines and other power mechanical tools.

Optimum Speed Control:

There are four speed settings available for the Sukoon Haldhar Micro-Trac. Maximum speed is 4 metres per second, or 15 kilometres per hour. This makes it very safe for Small Campuses, Farms, and Warehouses.

Accessories and attachments:

The Sukoon Haldhar Microt-Tac is available with a wide range of add-ons and attachments. For your particular requirements, you may select unique utilities. If the broad range of attachments available do not match your specific demands, we also provide completely tailored solutions.
