

MOLESEY

Enquirer

Media Pack 2026

The Molesey Enquirer is currently digital only, designed around an A5, Portrait format.

A standard A5 page is 148mm wide by 210mm high.

However, on a full page advertisement we use a 3mm bleed to allow images to have a clean edge. No fuzzy white lines.

Therefore, a full page advertisement with bleed is 154mm wide by 216mm high.

For double page spreads, use an A4 page layout in landscape, and add 3mm if your images go to the edge of the page.

I use Affinity Publisher as my preferred layout Software, so I am able to accept files in AFPUB format, as well as JPEG and PDF. If possible, always use PDF for best quality.
