Memberships & DNA Kits

You can sign up
and become a
member of
ECHRS for just
\$25.00 a year!

**BECOME
A MEMBER**

Benefits of Becoming a Member:

- Free printout and information about your family tree
- Access to local history, for example, old Essex District High School year books and information about the High school dating back to when it was built
- Countless resources with lots of information
- Being involved in a non-profit group that is very passionate about what they do

DNA KITS

We also have DNA kits that you can purchase. These kits get sent away and gives you a little bit more knowledge about where your ancestors came from. Call for more information if you are interested in purchasing one.

Welcome Dylan and Jayden!

Francophone community and public awareness to be enhanced at ECHRS

The Essex and Community Historical Research Society is pleased to welcome students Dylan Blay and Jayden Mitchell. Both are enthusiastic about local history and, through the Canada Summer Jobs Program will be working on major projects over the next couple of months. Dylan is a Grade 11 student at Tecumseh Vista and a resident of Essex. His bilingual skills are being put to good use as he explores francophone communities in Essex County that date back to the 1700s.

Jayden, who lives in Woodslee, is an Essex District High School graduate and currently studying psychology at the University of Windsor. Like Dylan, she is multi-talented and excels in web design and we look forward to her initiating an online presence for ECHRS.
