This cream deodorant is
handcrafted with certified
organic ingredients and carefully
selected oils and minerals. Our
formula works well for most users
—but remember, every body is
different.

Going natural means a bit of trial
and error, and that's okay!

This product is not considered an
antiperspirant by FDA standards,
as it does not contain aluminum
to block sweat—but it does a
great job maintaining freshness
naturally.

Going Natural Is a Journey
No two bodies are the same.
Your skin's natural acidity may
affect how this product smells or
performs. That's normal! We've
crafted a formula that works for
"most", but results may vary.

HOW TO USE

- Apply a pea-sized
amount to clean, dry skin
using fingertips or an
applicator.
