## *Requirements and Grant Guidelines*

### General Grant Requirements

- Applicant must live in the United States
- Applicant must have relevant credentials in the scientific field.
- Applicant is able to receive one general grant through Elev8Cure Foundation.

### *Elev8Cure Foundation Grant Procedures:*

1. Submit a 1-page proposal with the following information:
  - Executive Summary
  - Area of focus (i.e. breast cancer, health technology, etc.)
  - Describe: Why you need this initial funding, what will it solve/who will benefit from your research, how will you continue your research after funds have been exhausted.
  - Why should Elev8Cure Foundation fund your research?
2. Please mail or email research proposal (pdf file) to the address/email listed on the cover page. All pages of the application must be completed in order to be processed. Incomplete applications will be returned.
3. Elev8Cure Foundation Scientific Advisory Committee will review proposals as received. If the committee agrees that your research supports the overall mission of Elev8Cure, an in-person presentation meeting will be scheduled. Your in-person presentation will determine final approval.
4. Researchers and innovators must be present at philanthropic events.
5. A fiscal plan will also be developed. The researcher/innovator will receive all funds received minus a small fee for administrative costs (no more than 5% of funds received).
