MATERIALS and FINISHES

At Procraft Cabinetry, we carefully select the finest materials for our products — including LUXE® by Alvic, one of the premium panel solutions we work with.

LUXE® panels are engineered to deliver an exceptional combination of beauty and performance. Built on a high-density MDF core with a UV-lacquered finish, they offer outstanding scratch and stain resistance, a stunning mirror-like reflection, and advanced colour stability that keeps finishes vibrant over time.

An integrated antibacterial treatment and easy-clean surfaces make them as practical as they are beautiful — all while being manufactured from certified raw materials sourced from sustainable forests.

Milania

CUSTOMIZATION OPTIONS

Take your design further! Procraft Cabinetry Boise offers a more extensive array of customization options than other companies within our budget range.

Despite the fact that semi-custom lines from other manufacturers often come at a considerably higher cost, our modification program is comparable in quality and options.

- Reduce Width, Height, or Depth
- Increase Depth
- Hettich German Engineered Drawer Box
- Integrated Handles
- Integrated Appliance Panels
- ADA- Accessible & Adaptable

Creating a business worth believing in

Welcome to ProCraft Cabinetry, where craftsmanship meets innovation, to create exceptional cabinetry solutions for your home or business.

With 40 years of experience in the industry, ProCraft Cabinetry is a major kitchen and bath cabinet manufacturer providing innovative designs, industry leading quality and unparalleled service.

Our team puts hours and hours of craftsmanship into every ProCraft Signature and Milania Line piece, and it shows.

Top quality at a value that can't be beat. That's ProCraft Cabinetry.
