Re: Room Addition and Carport Renovation Project

I write this letter of recommendation for Integrity Builders and I want to express my appreciation for a "QUALITY JOB" well done by this company. From the first phone call until the completion of the job, Integrity Builders and their sub-contractors proved to be trustworthy, competent and very courteous.

The finished job is spectacular. During the four months of the project, Integrity Builders demonstrated diligence and dedication in completing the work in a timely, professional manner, while working within my budget. Sub-contractors delivered quality work at a price I could afford, which was very much appreciated. I was kept up to date on all phases of the work being performed as well as what was coming next. There was a specific plan laid out for this project and got the job done right.

Integrity Builders do quality work and stand whole-heartedly by their work. They also have an in-depth knowledge of the construction field. They choose quality sub-contractors and insure that the subs do a good job and complete their work.

I could not be happier with Integrity Builders work. I would not hesitate in using them again and to refer this company to others who are in need of honest and quality construction services. Please feel free to give my name as a reference for any prospective clients who wish to speak to me about your work
