

How to prepare Guardian Anointing Oil:

What you will need:

1 tablespoon of all the herbs in your kit. All of the herbs are organic and carefully selected by me to bring to you the most powerful protection.

1 ½ cups of your favorite carrier oil or olive oil

2 pots (double broiler method)

Wooden spoon

Strainer

1: Put a double boiler on the stovetop over low heat.

2: Add plant material, then cover completely with oil.

3: Simmer on stove top for 1-2 hours.

* Make sure it is never more than a simmer, it is very easy to damage herbal oils with heat.

* You may need to turn the heat off periodically to keep it from getting too hot.
