In the case of a *minor* medical issue that is commonly encountered during stays away from home, such as not eating, diarrhea, or vomiting, you agree to let Dr. Tara Koble treat your cat as necessary to ensure a happy stay. This might include diarrhea or anti-nausea medication, fluids, or an appetite stimulant. You understand that additional charges will apply. We will also report the use of such medication in our daily report to you. Most medications of this nature run about 1\$-20\$ per dose/administration.

If your cat is found to have fleas upon arrival, you will be charged 30\$ for the treatment and prevention of fleas during your cat's stay.

I *agree/don't agree* (circle one) to let PURR post pictures of my cat on social media platforms. Under no circumstances will any human names or information ever be shared.
