To Whom it May Concern

Chantel was extremely positive in telling her background story.

She was very passionate at spreading her message of how important school is and to make every day count. She was very engaging, and the students listened well to her- she made it relevant and interesting and gave plenty of opportunities for pupils to ask questions.

Students and staff spoke highly of the session and said it was motivational and an extremely worthwhile experience.

I would recommend Chantel to visit any school as staff and students had a really positive experience from her talk.

Yours Sincerely

Mrs K Weston
Teacher of English
