US DLA LAND AND MARITINE:

- CONTRACT #SPE7L122V7782 | TOTAL: \$1,190.00

HISTORY

Kaydek Machining Inc, was founded in 2016 in San Jose, CA with nothing more than a single CNC mill and a 1,000 square foot building.

Over the years, we saw an exponential increase in demand for rapid precision prototyping industry within the Bay Area. Our industry exposure has been diverse over the years ranging from the medical device, aerospace, defense, semiconductor to robotics industry.

Today we have expanded our footprint to over 10,000 square feet with many CNC mills and lathes on-site. We are an ISO 9001:2015 certified manufacturing company as well as an ITAR registered organization. Our quality management system has been designed an constantly refined to assure customers a complete quality product- in accordance with your drawing and specifications.
