Flower Care

In order to maintain the preserve roses in it's best original condition and for you enjoy them for many years, there are a few recommendations we suggest you take:

Do not expose Flowers directly under rays of sunlight for long periods of time.

Avoid high humidity above 80% and keep the bouquets in a cool place (65-72 degrees fahrenheit)

Never use water

Try to minimize handling

For indoor use ONLY

Ocassionally remove dust with an air spay, air blower or dusting it very gently with a cloth.

Enjoy them more than 1 year!
