HEALTHCARE

*Deepak Poddar*

**Deepak Poddar**

Pods Health Inc.  
Founder and Chairman  
Glasgow, United Kingdom

*“Pods Health Inc. is the most ambitious and visionary medical & healthcare distribution company.*

*With global offices and deep resources throughout North America, Europe, Asia and Latin America, our team works collaboratively to deliver high quality, timely, cost-effective and ground breaking solutions for hospitals, governments, businesses and individuals worldwide.”*

## Global & Health Industry Experts

Founded by Mr Deepak Poddar who studied medical science at St Andrews University, and alongside his family, was a key supporter of India's fastest growing FMCG company Patanjali Ayurved Ltd. Our team consists of international trade and health science experts who use over 20 years of industry experience to execute lasting solutions within today's world of unprecedented change.

Across a wide range of medical and healthcare products, existing supply chains are no longer sufficient. To deliver, organisations must pre-empt geopolitical change and leverage upon strong local relationships. At PODS, our skillset is unique, our people are global, and integrity is our greatest asset.

# WELCOME TO PODS HEALTH INC

## PURPL – UVC LIGHT STERILISATION

UV light products can help defend MGM venues against viruses. Whether it be the table surfaces of the gaming room to the floors of each room and even the doors where multiple hands could be touching in short periods Purpl range of products will be able to provide a range of protection through advance light technology. UV products are now recommended by the World Health Organization, Centre of Disease Control and Federal Government to be combined with alcohol or chloride based to disinfectant to sanitize surfaces.

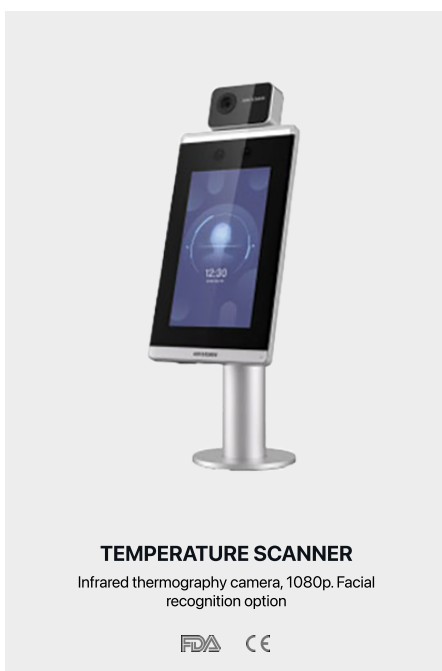

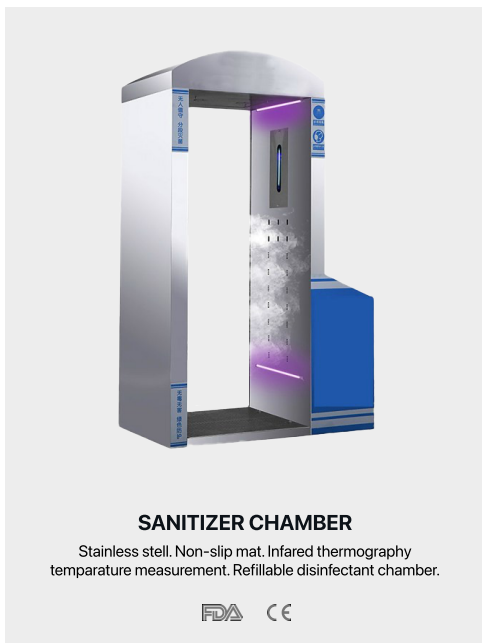

# MASKS

Protect your staff and guests by offering a range of masks to be worn in certain areas of your venues. By restricting the virus from being locally transmitted through your hotels the trust of patrons will be high seeing employees wearing suitable protective gear.

## TEMPERATURE SCANNERS AND UV DOORES

Temperature checks can alert management of a possible high risk staff member or customer before even walking in the doors. By having the correct equipment on hand at every entry point your company will build more trust, that anyone inside your venues has not shown the common signs of having any unwanted virus.

## GOWNS (DISPOSABLE)

Protect your staff and health professionals against the possibility of contamination by blood, body fluids, and other infectious substances, or to protect patients from infections. These products are disposable and come in a range of sizes and designs.

**DISPOSABLE ISOLATION**  
 SPP+PE, SMS, Laminate, 25GSM, 35GSM, 42GSM, 50GSM, Knitted cuffs.  
 FDA CE

**DISPOSABLE SURGICAL**  
 PE, SMS, SMS, 50GSM and 92GSM, Non-sterile & sterile, Velcro or ties on neck and back, Knitted cuffs.  
 FDA CE

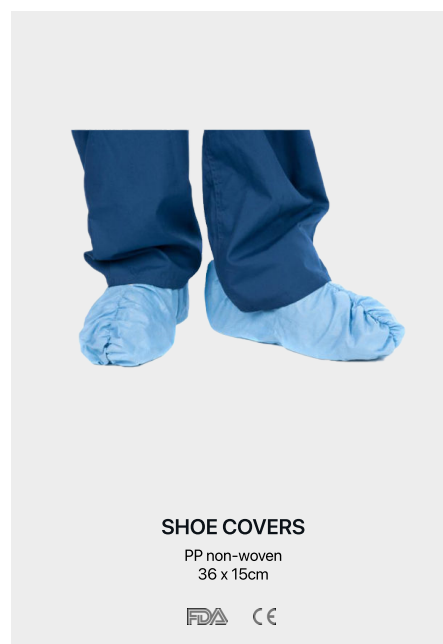

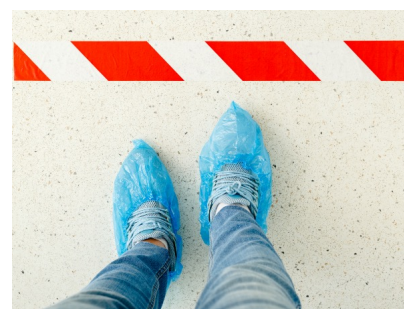

**DISPOSABLE COVERALL**

# VENTILATORS

Please see an overview of all our Ventilators that we can supply. For a more detailed review of each ventilator please refer to our Ventilator Document which can be provided upon request.

 <p><b>Servo-U From Sweden</b> Features and ergonomic design. Mountable to ceiling supply unit or shelf</p>	 <p><b>Servo-I from Sweden</b> Can satisfy the ventila-tory needs of every patient, from neonatal to adult.</p>	 <p><b>Marquet Servo-S</b> Based on proven SERVO tech User-friendly simplicity</p>	 <p><b>ACM 812A</b> Suitable for adult and child Inspiration halt, convenient for sucking phlegm</p>	 <p><b>Hamilton-C1 neo</b> Versatile neonatal ventilator Compact Design</p>
 <p><b>Hamilton G5</b> State of the art diagnostic tools for lung assessment. Features high flow oxygen therapy</p>	 <p><b>Dräger Savina 300 Select</b> Quick operational readiness with an automatic device check. Intelligent alarm handling for quick response to patient alarm situations</p>	 <p><b>Dräger Evita Infinity V500 Ventilator</b> Combine fully-featured, high performance ventilation with Infinity Acute Care System integration.</p>	 <p><b>Dräger Evita XL</b> Auto Flow – Automatic adaption of inspiratory flow in Volume Controlled Modes. Automatic Tube Compensation</p>	 <p><b>Lyra x2 from Germany</b> A premium non-invasive turbine driven ventilator with no compromise on the performance in invasive ventilation.</p>
 <p><b>Löwenstein Ventilic</b> The new generation of ventilators from Löwenstein Medical which includes VENTilic LS.</p>	 <p><b>Löwenstein Elisa from Germany</b> High performance, noise-optimised turbine guarantees sufficient flow capacities.</p>	 <p><b>Eternity SH300 ICO Ventilator</b> Easy Setting by Navigator wheel knob and touch key. Built-in Battery</p>	 <p><b>Agva Ventilator from India</b> Proximal flow and pressure sensor 7 Inch Lenovo tablet control center</p>	 <p><b>VG70 Ventilator</b> Apnoea Ventilation, Automatic Tube Compensation (ATC) smart suction</p>
 <p><b>Military Grade Pulmonary Ventilation</b> The most innovative lung ventilator with kinetic energy converter for gas acceleration and device operation.</p>	 <p><b>Prisma SOFT and Prisma SMART</b> You'll make the right choice with prisma SOFT or prisma SMART! The two innovative, simple to use devices complete the prismaLINE spectrum.</p>	 <p><b>Prisma 25ST</b> Perfect for patients with obstructive, mixed or complex sleep apnea with comorbidities.</p>	 <p><b>Trilogy 100</b> Meets the changing needs of patients by combining unique flexibility with ease of use and advanced technology.</p>	 <p><b>Trilogy 202</b> A volume control and pressure control ventilator for invasive and non invasive ventilation.</p>
 <p><b>Trilogy EV300</b> Helps provide smooth transitions across your patients' changing environment as their disease improves or deteriorates, from admission to discharge.</p>	 <p><b>Bellavista 1000 from Switzerland</b> The intramedical Bellavista intensive care respirator offers state of the art technology and an innovative user interface.</p>	 <p><b>Philips DreamStation</b> These ventilators adapt to the changing patient needs, helping to normalize ventilation in both ways INVASIVE and NIV.</p>	 <p><b>Philips E30</b> Quick set-up and simple operations allowing healthcare providers with a wide range of skill sets to treat and monitor patients.</p>	 <p><b>Philips V680</b> Cost-effective advanced critical care life support ventilator combined with our renowned non-invasive ventilation (NIV) technology.</p>
 <p><b>ResMed VPAP ST</b> VPAP ST device – Air tubing – 90W power supply unit – S9 Travel bag – SD Card &amp; S9 SD card Protective folder.</p>	 <p><b>RESmart GII BPAP System (T Series)</b> Non-invasive ventilation for patients with Obstructive Sleep Apnea (OSA) and respiratory insufficient in hospital or at home.</p>	 <p><b>Bivovent</b> Designed and produced for intensive care and reanimation units. User-friendly interface</p>	 <p><b>Astral</b> Variety of modes, circuits and interfaces for a broad range of conditions in adults and children (&gt;5kg)* Smart Mouthpiece ventilation enables fast, easy switching from mask to MPV without changing circuit.</p>	 <p><b>Musca x1</b> Portable and easy operation. Innovative voice-guided application.</p>

AFRICAN DREAMS

[www.africandream.me](http://www.africandream.me)

#### OUR CHARITY

Founded by Sung Jun Kim, Young Suk Suh and Deepak Poddar, African Dreams™ is a not-for-profit organisation registered in Guinea. In partnership with the L'Agence Nationale de Sécurité Sanitaire of Guinea (ANSS), our mission is to provide equitable healthcare and medical supplies to the 400 million people living in West Africa.

At present, it is extremely difficult for developing nations to procure necessary healthcare and medical supplies amidst global protectionism with more than 70 countries imposing restrictions on the export of medical supplies, and with geopolitically powerful nations dominating procurement.

African Dreams™ is partnered with Pods Health Inc. and HOLY Technologies Co., Ltd to source directly from world-class manufacturers. We are working hard to ensure that West Africa will be equip to prevent further spread of COVID-19 with sufficient testing and personal protective equipment, as well as restart its economy and international travel.

To learn more about how you can support, please contact [info@podshealth.com](mailto:info@podshealth.com)

## OUR CHARITY

Aditi Poddar Foundation was founded on June 29, 2011 by Aditi Poddar and Deepak Poddar. Aditi Poddar Foundation is a non-religious, non-political not-for-profit foundation dedicated to provide education to orphans.

Aditi Poddar Foundation is to empower underprivileged and orphan children through relevant education, innovative healthcare and market-focused livelihood programs. It is to provide a platform that unifies foundations and resources for orphans, child abuse, abduction, homelessness, child molestation and community outreach programs from across the country.
