# Legend Shower Kits

## One code for your complete shower kit

In order to facilitate the options, BARIL offers already assembled shower kits which include all the components necessary for the proper performance of your water accessories. Thereby, you only have to order one product code with a single price for the whole shower kit. The shower kits that include a rain head are offered with a wall-mounted arm (PRO) or with a ceiling-mounted arm (PRR). Alternatively, you can also purchase the rough(s) and the trim kit (TRO or TRR for ceiling-mounted shower heads) separately, according to the step of your project. The pressure balanced and thermostatic pressure balanced roughs are offered in two versions: with PEX connections or with 1/2" male NPT or welded copper connections. When relevant, the option to choose a shower kit without a shared position is offered.

## Your customer wants to be unique?

Customize your shower kit with the BARIL collection; there are thousands of custom shower kit possibilities with a complete selection of shower components. In each collection, we suggest a selection of shower components that harmoniously fit with the shower valves of the collection and a selection of ecological shower components on the following page.

You can either put together your own shower kit with the products of the shower section, or by modifying one or more products of an already assembled PRO/PRR shower kit! All you need to do is calculate the price difference.

# Marketing Tools

## The Displays

With its contemporary shades and its integrated lighting, the BARIL presentation wall has an attractive impact on the customer and brings a sophisticated touch to your showroom. Each faucet is installed on a plate and is simply placed on a shelf; it can thereby be moved as you wish. Podiums are also available to highlight BARIL kitchen faucets and floor-mounted tub faucets.

## The Brochures

To help you get to know our collections, and to inspire you, our brochures are available on our website at all times and in hard copy on demand.

# Marketing Tools

## The Essentials Booklet

More than just a brochure, The Essentials booklet is the perfect sales tool! It features our bestsellers, timeless styles available in our 4 most popular finishes. In addition, you benefit from very competitive prices and 48-hour shipping on all these products.

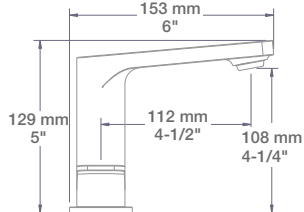

You can also find them in the catalog by looking for products identified as “The Essentials”.

# BARIL in Short

## STYLE x FUNCTION

---

At BARIL, we're less about faucets. Ok, we're a lot about faucets. But we're more about you, your life and the role we play in it. Understanding the bigger picture; from your grand vision to your day-to-day rituals. Feeding your imagination with style inspiration and improving your life through product innovation. Creating the spaces that you're proud to live in and crafting the little details you can't live without. Faucets are designed to please your eyes in an instant and engineered to withstand your touch for a lifetime.

### **The BARIL Family:** ***Robinetier\** by love of the craft**

---

Driven by its passion for the avant-garde, the family-owned business excels in the design, manufacture and distribution of unique faucets.

\*Robinetier: (from french) master craftsman in the art of faucets making.

### **Designed by BARIL** **in Montreal**

---

Before being assembled in Canada, all BARIL faucets begin in the minds of our designers who, as their city, bring a European sensibility to the North American market.

## Quality and Reliability since 1986

---

Relying on expertise finely developed over more than 35 years, our team focuses on research and constant improvement to craft durable, flawless faucets. BARIL faucets are robust, built with high-quality materials and advanced technical components. All products are carefully controlled and tested by our quality department at each step of manufacturing.

## Lifetime Warranty on Products and Service

---

We proudly warranty all our products for life against manufacturing defects, and we also provide professional, fast and personalized after-sales service. Just call us at 1.800.461.3871 or write to us at [info@barildesign.com](mailto:info@barildesign.com), and it will be our pleasure to answer any question on products or installation. Our sales representatives and customer service professionals are trained by our product experts. They know how to support you in case of any problem you might encounter, and replacement parts are available during the whole product's life.

## Shipping Within 48 Hours

---

There is a sales office and a warehouse in Trois-Rivieres that will ship you any order in less than 48 hours. When you order at BARIL, we can answer your demands right away because your order is directly linked to our stock managing system, less than 20 meters away. In less than 48 hours, the majority of your orders will be ready to be delivered to your doorstep.

# Certifications

## All BARIL products are compliant with the following standards:

**ASME A112.18.1/CSA B125.1**  
Standard governing guarantee relating to the product's mechanisms and durability of its finish

**NSF 372**  
Standard governing water quality for lavatory and sink faucets

**NSF/ANSI 61**  
Standard governing materials that come into contact with drinking water

**ASSE 1016**  
Standard governing water temperature control in shower systems

**BARIL FAUCETS ARE COMPLIANT WITH ALL FEDERAL AND STATE DRINKING WATER LEGISLATION.**

**FOR SPECIFIC MASSACHUSETTS LEGISLATION, A LIST OF COMPLIANT SKUs IS AVAILABLE UPON REQUEST.**

## BARIL products are certified by at least one of the following organizations:

### ADA CERTIFICATION

All products displaying the ADA logo will comply with the applicable ADA requirements as specified in the Americans with Disabilities Act as follows: faucets with lever, wrist blade, blade, cross/six-prong or T-handles products displaying the ADA symbol will comply with the actuation force Accessibility Guidelines, Section 309 Operation, of the Act.

### WATERSENSE CERTIFICATION

All items with the WaterSense logo meet or exceed the certification criteria as of the EPA's WaterSense Program. WaterSense labelled bathroom sink faucets that use a maximum of 1.5 gallons per minute (5.7 l/min) can reduce a faucet's water flow by 30 percent or more from the standard flow of 2.2 gallons per minute (8.3 l/min) without sacrificing performance. Same for hand shower and shower head, for which the flow rate as been reduced to 1.75 gpm (6.6 l/min) instead of the industry standard of 2.5 gpm (9.5 l/min). WATERSENSE® is a registered mark of the U.S. Environmental Protection Agency.

### CEC CERTIFICATIONS

All items with the CEC logo feature an option that meets the California Energy Commission requirements. To be CEC-listed, lavatory faucet must use a maximum of 1.2 gallons per minute (4.5 l/min), kitchen faucet and shower head must not exceed 1.8 gallons per minute (6.8 l/min) and shower valve must be without shared position. These measures ensure significant water saving and can be applied to many BARIL products.

### CALGREEN CERTIFICATION

All items with the CALGreen logo meet the California Green Building Standards Code (known as CALGreen). Lavatory faucets with a 20% reduction or over meet the CALGreen certification criteria. Many BARIL faucets and shower components comply with the California Green Building Standard Code (known as CALGreen). A faucet with a 20% reduction or over of the water flow meets the CALGreen certification criteria.

Canadian Standards Association

# Water Flows

## Faucet Flow Rate

---

BARIL offers faucets adapted to most North American standards.  
BARIL's regular product water flow are:

### Kitchen Faucets

1.8 gpm to 2.2 gpm (6.8 to 8.3 l/min)  
depending on the model - 60 psi

### Lavatory Faucets

1.5 gpm (5.7 l/min) - 60 psi

### Tub Faucets

5.3 gpm to 9.2 gpm (20 to 35 l/min)  
depending on the model - 60 psi

### Shower Components (hand shower, shower head, etc.)

2 gpm to 2.5 gpm (7.6 to 9.5 l/min)  
depending on the model - 80 psi

### Shower Valves

5 gpm to 16 gpm (19 l/min to 60 l/min)  
depending on the model - 60 psi

The thermostatic valves and T/P valves offer the best flow on the market with performances up to 16 gpm (60 l/min) - 60 psi.

\* See specific products in the catalog to confirm their exact flow.

## Ecological Options

---

BARIL faucets offer different options to help you obtain LEED certification or comply with your local regulations. Add the ecological option of your choice for free.

# High-End Components

## Quality Faucets

---

BARIL faucets are all **forged of solid brass** and comply with the highest quality certifications and manufacturing standards, including low lead content and material thickness above standards. These advantages **lower the risks of manufacturing defects**.

## Cartridges

---

BARIL uses **high-quality ceramic disk cartridges** made in Europe. The ceramic disk cartridges use a pair of ceramic disks that lie against each other to control water flow. Being an extremely strong material, ceramic **resists cracking and withstands extreme temperatures**. Because the disks are polished to a near-perfect flatness, the seal between them is watertight. This technology eliminates wear on rubber seals and extends the cartridge's service life.

# High-End Components

## Leak-proof and Anti-twist Water Inlet Hoses

---

At BARIL, we care about conceiving smart products. Therefore, we think about facilitating our products' installation, and we ensure to minimize leaking risks. At BARIL, your kitchen and single hole lavatory faucet water inlet hoses are **made of polyamide/PEX**, a material that doesn't rust and doesn't react to chemicals\*. The kitchen and single hole faucet hoses, in addition to being **corrosion-resistant**, are directly connected to the faucet's brass body, **reducing leaking risks** compared to faucets with a copper pipe extension. This assembly also ensures **an easier installation** and facilitates tightening with fewer connections.

These BARIL's inlet hoses, developed in collaboration with Neoperl, a leading manufacturer in this field, are **robust, flexible, lightweight and glide smoothly** thanks to their special braiding. The inner hose is made of Softpex (cross-linked polyethylene), a material proved millions of times in the market with a **0% failure rate**. BARIL's inlet hoses are **torsion-resistant** thanks to their quality material and are also designed with swivel connection nuts at the water inlets, avoiding torsion when tightening them.

\* Please note that it's important to warn users to store corrosive products in a secure space, and away from corrodible parts, such as older faucets or products from other manufacturers. It is strongly recommended to verify your faucets' connections every six (6) months.

# High-End Components

## Aerators

---

### The perfect stream with BARIL

While some faucet aerators serve only to control the flow rate, BARIL's faucet aerators do much more: they also **control the stream straightness** and diameter, **reduce splash** by aerating the stream and eliminating side spray, **save water and reduce energy costs**, and meet North American plumbing codes and standards. Faucet aerators introduce air into the water stream to produce a **larger white stream, soft to the touch** and splash-free. BARIL's faucet aerators are helping to reduce lime build-up. BARIL uses Swiss-made Neoperl aerators, considered some of the world's best.

BARIL offers complementary options on some faucet models, such as adjustable aerators, low-flow aerators for your most demanding energy-saving projects, design stream aerators such as waterfall streams, and much more.

## Adjustable Aerator

---

Sometimes, when a faucet is installed with a wash basin, the faucet stream's direction isn't optimal (water splashing, difficulty rinsing hand, etc.). BARIL solves this problem by offering this aerator to **allow adjustments in the water stream's direction** to ease the choice of wash basin and to improve user comfort. The angle of the water stream can be adjusted directly at the aerator, simply by moving the adjustable tilting plate with your finger (**± 6° up to ± 10°, depending on the aerator model**). In the basic position, the adjustable version is visually identical to the standard version.

This benefit is integrated in some lavatory faucets of the following bathroom collections:

B51 MA / B56 ACCENT / B04 PETITE / B05 REC / B14 OVAL / B16 NAUTICA / B18 RALPH / B35 MARIE / B45 SENS / B46 PROFILE / B47 FLORA / B66 ZIP / B71 EVA / B72 TRADITION / B74 VICTOIRE / B80 AIR

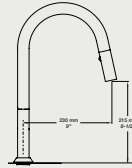

See all available products in the corresponding collections!

# Kitchen Faucets Advantages

## 180° Swivel Spout

Allows to reach all areas of the sink.

## Good Faucets' Ergonomics

Convenient to fill large pots and tall pitchers.

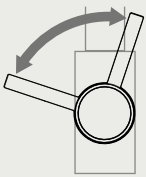

## Easy-to-handle Hand Spray Hose

Glide without noise, lightweight and flexible.

## Super Swivel Hand Spray

The integrated ball joint of the hand spray hose makes it very easy to rotate.

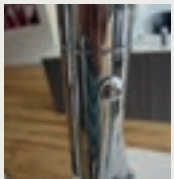

## Comfort of Use Even in Tight Spaces

The handle rotates towards the back of only 15° to avoid knocking against the backsplash area.

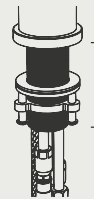

## Cool Start

Kitchen faucets open on cold water when the handle is in the upward position, allowing energy savings and avoiding risks of burns.

## Automatic Docking

The automatic docking ensures the spray will return to its place after each use, and that it will firmly stay in place.

## Thick Counter

Installation tube of 2-1/2" to allow fitting on very thick counters (max. 2").

## Easy Installation

Very steady and simple installation of faucets thanks to our threaded nut with 3 screws easily reachable, even in a tight location.

## Solid Installation

Included spacer and assembly triangle with all kitchen faucets to be used under the sink in order to solidify during installation on a very thin sink.

## Hand Spray Return Strength

The strength of return of the hand spray is adjustable according to the user's wish when using the included weight and/or spring.

## Quick Connection

The brass connection facilitates the hand spray hose's connection to the water supply. Complete the connection with a simple click, no tools are required.

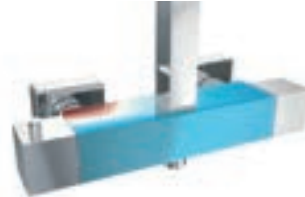

Some features apply to a limited number of models.

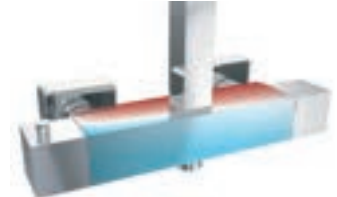

# Shower Products Advantages

## External Thermostatic Shower Column

1. Temperature's handle is on the hot water inlet side, allowing the surface's temperature never to exceed the shower's water temperature.

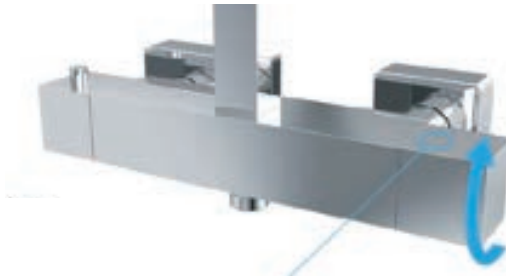

Water distribution with temperature handle on the HOT water inlet side.

Water distribution with temperature handle on the COLD water inlet side.

2. Accessory indicator on top of the diverter handle. This diverter handle can turn 360° in either direction.

3. With the external thermostatic valves on BARIL shower columns, your two water accessories can work individually or simultaneously.

No water flow

Water flow through the hand shower only

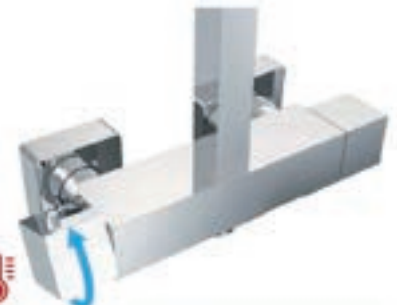

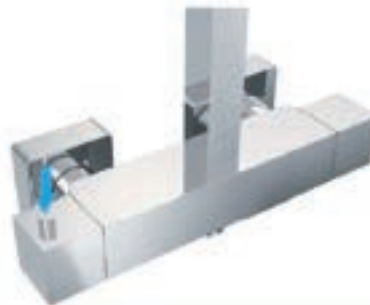

Water flow through both hand shower and shower head simultaneously

Water flow through the shower head only

4. The shower head arm can be adjusted up to 20" in height to allow maximum comfort in your shower.

5. Security: the temperature on our valve is set at 38 °C / 100° F and can be raised by pressing the button and turning the handle counterclockwise.

# Shower Products Advantages

## Shower Valves

BARIL specialized in shower faucets since our beginnings more than 35 years ago. BARIL has always integrated the best shower valve technologies, such as European technologies with thermostatic valves and North American technologies with pressure balanced valves. BARIL uses the highest water flow valves on the market in their respective categories.

Here is a summary of the large selection of valves offered by BARIL, each of them responding to different and/or complementary needs:

### Pressure Balanced (Type P valve)

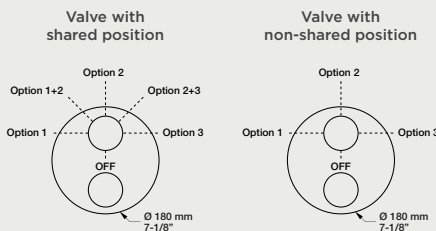

- Pressure balanced valve
- Pressure balanced valve with 2-way diverter (available with shared or non-shared position)
- Pressure balanced valve with 3-way diverter (available with shared or non-shared position)

### Thermostatic (Type T valve)

- External thermostatic valve
- 3/4" thermostatic valve
- With several options of volume control valves or diverters with off (available with shared or non-shared position)

### Thermostatic Pressure Balanced (Type TP valve)

- 2-way thermostatic pressure balanced valve (available with shared or non-shared position)
- 3-way thermostatic pressure balanced valve (available with shared or non-shared position)

### Compact valves with shared position and non-shared position

Some of our pressure balanced, thermostatic or thermostatic pressure balanced shower kits are equipped with a built-in diverter valve that allows the use of 2 or 3 accessories individually, and 2 accessories simultaneously. Alternatively, you can choose those same shower kits with a non-shared position, allowing only one accessory to work at a time.

### High quality trim and ease of installation

We thought about your decor and your clients: BARIL shower valves plates are without visible screws. Furthermore, we offer easy installation with flat back rough-ins and depth-adjustable trims.

# Shower Products Advantages

## Shower Valve Cartridge Types

---

### Pressure Balanced Valve

Shower valve allows to balance the pressure fluctuations caused by the water use in the house. A piston or diaphragm system reacts to cold or hot water pressure variations and will compensate by allowing more or less water to go through on the opposite side. This valve ensures a stable water temperature and no risk of burns.

### Pressure Balanced Cartridge Operation

The pressure balanced cartridge works only on the water pressure and not on the temperature itself. It balances the cold water pressure with the hot water pressure. By keeping the same pressure on both sides, the water temperature stays almost the same.

### Thermostatic Valve

The thermostatic valve is mostly used in the shower and its purpose is to ensure temperature stability. The thermostatic technology allows great water flow and the possibility of using two water outlets at the same time. The thermostatic valve cartridges react to the slightest water temperature variation, which allows a precise temperature. This valve is safe with its 38 °C / 100 °F stop button (available in most collections). On a thermostatic valve, temperature selection isn't required at each use. The thermostatic valve must be installed with a diverter or a volume control valve for each accessory it supplies.

### Thermostatic Cartridge Operation

A thermostatic component (paraffin) contracts or dilates depending on the mixed water temperature, thereby activating cold and hot water inlets' opening or closure in order to adjust the exit water temperature. This mechanism allows to maintain the set temperature at the exit.

### Thermostatic Pressure Balanced Valve

This valve combines the benefits of pressure balanced and thermostatic valves in terms of temperature regulation, with an intermediate flow between both valve types. The cartridge regulates the temperature to a precise temperature, which can be pre-selected, by reacting to the slightest temperature variations. Therefore, the exit water temperature remains unchanged, regardless of the temperature and pressure variations of the hot and cold water inlets. Finally, this valve is safe with its 38 °C / 100 °F stop button (available in most collections). The T/P valve meets the most strict performance criteria in terms of temperature and pressure variations, as defined by the ASSE 1016 - 2011 standard.

### Thermostatic Pressure Balanced Cartridge Operation

This cartridge is a high-performance thermostatic cartridge (high flow, very low temperature fluctuations), whose thermostatic mechanism is developed and manufactured in Europe by the world leader in cartridge manufacturers.

# Rough-in Valves Advantages

## Pressure Balanced Valve

RVA-9020-00-B    RVA-9020-P0-B

1/2" male NPT or  
welded copper connections

PEX inlets and 1/2" male NPT or  
welded copper outlets connections

A- Type P faucet  
B- Built-in check-stop valves accessible from the front  
of the rough-in  
C- Water flow of 6.1 gpm - 60 psi

- Volume control with temperature memory
- Temperature variation of less than 2 °C / 3.6 °F, making it one of the types of valves with the least temperature variation on the market
- Manually adjustable temperature limiting device
- Ceramic disk cartridge made from high-strength, high-density materials allowing a longer life span
- Cartridge included with the rough-in
- Front access, easy-to-change cartridge
- Thicker brass compared to competitors
- Included template for easy installation
- Flat back for easy installation
- Trim depth adjustment range of 1/2"
- Wall mounting anchor points molded in the rough-in valve
- Lifetime warranty against manufacturing defects

## 3/4" Thermostatic Valve

RVA-3404-00-B

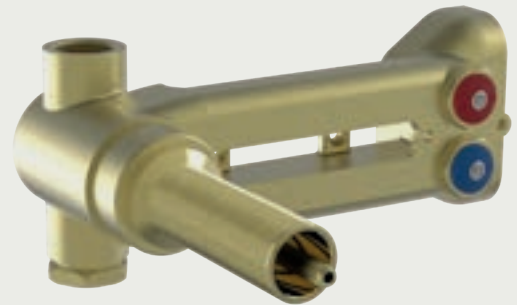

- A- Type T faucet
- B- Built-in check valves
- C- Built-in reversible check-stop valves with filters accessible from the front of the rough-in
- D- Water flow of 16 gpm if direct connection on 3/4" copper - 60 psi

- Temperature variation of less than 2 °C / 3.6 °F, making it one of the types of valves with the least temperature variation on the market
- Manually adjustable temperature limiting device
- Thermostatic cartridge
- Cartridge included with the rough-in
- Front access, easy-to-change cartridge
- Thicker brass compared to competitors
- Included template for easy installation
- Flat back for easy installation
- Trim depth adjustment range of 1"
- Wall mounting anchor points molded in the rough-in valve
- Can easily supply 3 accessories
- 3/4" female NPT connections
- Safety temperature stop, preset at 38 °C / 100 °F
- Must use with separate stop/volume control
- Lifetime warranty against manufacturing defects

## 3/4" Thermostatic Valve

RVA-3453-00-B

- A- Type T faucet
- B- Built-in check valves
- C- Built-in reversible check-stop valves with filters accessible from the front of the rough-in
- D- Water flow of 9 gpm if direct connection on 3/4" copper - 60 psi

- Temperature variation of less than 2 °C / 3.6 °F, making it one of the types of valves with the least temperature variation on the market
- Manually adjustable temperature limiting device
- Thermostatic cartridge
- Cartridge included with the rough-in
- Front access, easy-to-change cartridge
- Thicker brass compared to competitors
- Included template for easy installation
- Flat back for easy installation
- Trim depth adjustment range of 1"
- Wall mounting anchor points molded in the rough-in valve
- Can easily supply 3 accessories
- 3/4" female NPT connections
- Must use with separate stop/volume control
- Lifetime warranty against manufacturing defects

**The thermostatic shower valve must be installed with a volume control valve for each accessory it supplies.**

**The thermostatic valve can also be used with a 2-port or 3-port diverter with off.**

# Rough-in Valves Advantages

## 2-port Diverter Rough Valve with Off

RVA-9562-00-B / RVA-9562-00-NS-B

---

- A- Can replace 2 volume control valves
- B- RVA-9562-xx-B: 2-way diverter, shared ports
- C- RVA-9562-xx-NS-B: 2-way diverter, non-shared ports
- D- Extra long cartridge for maximum adjustment
- E- Water flow of 10.5 gpm - 60 psi

- Cartridge included with the rough-in
- Front access, easy-to-change cartridge
- Thicker brass compared to competitors
- Flat back for easy installation
- 2 anchor points molded in the rough-in valve for wall-mounting
- Lifetime warranty against manufacturing defects

## 3-port Diverter Rough Valve with Off

RVA-9563-00-B / RVA-9563-00-NS-B

---

- A- Can replace 3 volume control valves
- B- RVA-9563-xx-B: 3-way diverter, shared ports

## LEGEND

### Finishes

The MARIE collection has 6 finishes.

C = chrome                      I = mist  
E = glossy black                J = french gold  
H = blush                        K = matte black

The choice of finishes must be made for each component of the faucet according to the legend.

### Price

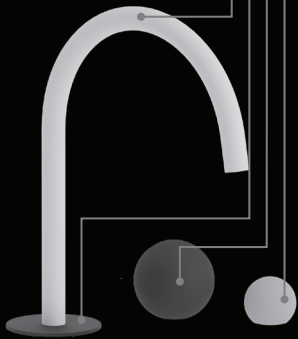

#### Lavatory Faucet:

The price is determined by the spout finish.

#### Shower/bath Valve:

The price is determined by the wall plate finish.

**B35-8009-00L-xxxx**

### To Order

The 4 letters of finishes must be replaced by the desired finishes for each of the components.

The order of the components is indicated in the image as well as in the features.

For example, the faucet above includes:

- Spout in mist finish (I)
- Flange in matte black finish (K)
- Handle 1 (large, flow rate) in matte black finish (K)
- Handle 2 (small, temperature) in mist finish (I)

The product code is therefore: B35-8009-00L-IKKI

**Spout - Chrome**

**945**

**Spout - Other finishes**

**1055**

Two-handle deck-mounted lavatory faucet, drain not included

- A- Max: 1.5 gpm (5,7 l/min) - 60 psi
- B- Laminar stream
- C- Order your lavatory drain in chrome, matte black, mist or french gold finish (pages 309-310)
- D- Optional under handle flange: order ROS-4717-03-xx
- E- CAR-1020-01 (volume control)  
CAR-0KDN-28 (temperature control)

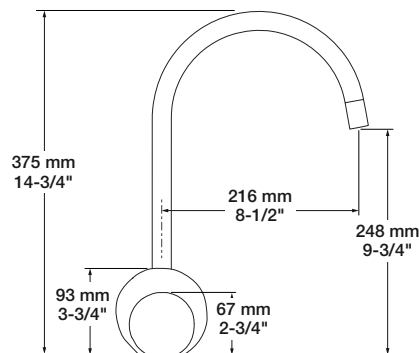

#### Choose your finishes

- 1<sup>st</sup> x: Spout** Chrome (C), mist (I), french gold (J), matte black (K)
- 2<sup>nd</sup> x: Flange** Chrome (C), glossy black (E), blush (H), mist (I), french gold (J), matte black (K)
- 3<sup>rd</sup> x: Handle 1** Chrome (C), glossy black (E), mist (I), french gold (J), matte black (K)
- 4<sup>th</sup> x: Handle 2** Chrome (C), glossy black (E), blush (H), mist (I), french gold (J), matte black (K)

#### Ecological options

Codes	Reduced flow rates	CEC

## LEGEND

### xx: Finish

The first x is the main finish of the faucet, including the handle cover and the spout — chrome in this example.

The second x is the color accent — smokey grey in this example.

The finish of this example is therefore CF: smokey chrome.

### Order

The first letter designates the main finish. The x designates the color accent.

Prices vary depending on the main finish only.

## B47-1349-00-xx

# AIR B80

Compatible with the Touchless Sensor  
Order ELE-2001-01-xx (p. 43)

# LEGEND

## Order

Items from the AIR collection must be ordered in 2 steps:

- 1- Order the core product (spout + handle rough)
- 2- Order the desired handle trim

You must order both codes to obtain a complete product.

## 1. Order the core product

**B80-8001-1PL-xx**

**FAUCET WITHOUT HANDLE  
DRAIN INCLUDED**

CC	KK	LL	BB	NN/YY	VV/TT	GG
455	637	728	1047	637	1047	1320

Available  
Q3 2023

The core product includes:

- The faucet spout
- The handle rough

Available in all solid finishes.

8" c/c lavatory faucet, drain included

- A- Max: 1.2 gpm - 60 psi
- B- Push-button drain with overflow included
- C- Laminar stream
- D- CAR-3820-01 (Cold), CAR-3820-02 (Hot)

**HANDLE OPTIONS** Please order **one** of the following handle kits to complete the product (see below for details):

<b>M80-8000-110-xx</b>	Circular handles		<b>M80-8000-330-xx</b>	Symmetrical lever handles	
<b>M80-8000-220-xx</b>	Cross handles		<b>M80-8000-440-xx</b>	Asymmetrical lever handles	

## 2. Order the desired handle trim

### Order

The first letter designates the main finish.  
The x designates the color accent.

Prices vary depending on the main finish only.

**M80-8000-xx0-xx**

**HANDLE KIT**

Cx	Kx	Lx	Bx	Nx/Yx	Vx/Tx	Gx
200	240	260	260	260	280	300

### xx: Finish

The first x is the handle base finish — chrome in this example.

The second x is the handle top finish — matte black in this example.

The finish of this example is therefore CK: chrome matte black

Handle kit for 8" c/c lavatory faucet

- A- Handle kit required to complete product B80-8001-1PL-xx
- B- Comes in pair
- C- Made of brass parts

## Recommendation

We recommend that the faucet **CORE FINISH** (code B) and the handle base (code M) be the same.

Ex: B80-8001-1PL-CC + M80-8000-110-Cx

However, it is possible to mix and match finishes according to your preferences.

Actual products may differ from pictures. Actual products measures may differ from the measures shown. All CAD prices are subject to change without notice. Effective as of June 2023.

## Order

Product from the AIR collection must be ordered in 2 steps:

- 1- Items the core product (wall plate + handle rough)
- 2- Order the desired handle trim

You must order both codes to obtain a complete product.

## 1. Order the core product

<b>B80-9522-00-xx</b>	<b>VALVE WITHOUT HANDLE</b>	<b>CC</b>	<b>KK</b>	<b>LL</b>	<b>BB</b>	<b>NN/YY</b>	<b>VV/TT</b>	<b>GG</b>
		<b>695</b>	<b>938</b>	<b>1008</b>	<b>1251</b>	<b>938</b>	<b>1286</b>	<b>1321</b>

Available Q3 2023

The core product includes:

- The wall plate or flange
- The handle rough

Available in all solid finishes.

Thermostatic pressure balanced shower valve with 2-way diverter without handle (shared port)

A - 1 outlet: 7.9 gpm - 60 psi, 2 outlets: 3.7 gpm - 60 psi  
 B- Up to 2 accessories can be used at the same time  
 C- Thin brass plate  
 D- Reversible check / non-return valves in case of water supply inversion  
 E- CAR-2661-00 (temperature), CAR-3003-36 (diverter)  
 F- Rough valve RVA-9521-00-B included  
 G- Large depth adjustment range

Ecological options **CEC**

Codes	Features
B80-9522-00-xx-NS	Non-shared port
T80-9522-00-xx + RVA-9521-00-NS-B	1 accessory works at a time
T80-9522-00-xx + RVA-9521-PO-NS-B	CAR-3003-36-NS (diverter)

**HANDLE OPTIONS** Please order **one** of the following handle kits to complete the product (see below for details):

<b>M80-9520-110-xx</b>		<b>M80-9520-120-xx</b>		<b>M80-9520-130-xx</b>	
<b>M80-9520-220-xx</b>		<b>M80-9520-230-xx</b>		<b>M80-9520-330-xx</b>	

## 2. Order the desired handle trim

### Order

The first letter designates the main finish.  
 The x designates the color accent.

Prices vary depending on the main finish only.

<b>M80-9520-XX0-xx</b>	<b>HANDLE KITS</b>	<b>Cx</b>	<b>Kx</b>	<b>Lx</b>	<b>Bx</b>	<b>Nx/Yx</b>	<b>Vx/Tx</b>	<b>Gx</b>
		<b>200</b>	<b>240</b>	<b>260</b>	<b>260</b>	<b>260</b>	<b>280</b>	<b>300</b>

### xx: Finish

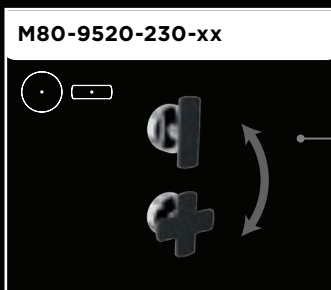

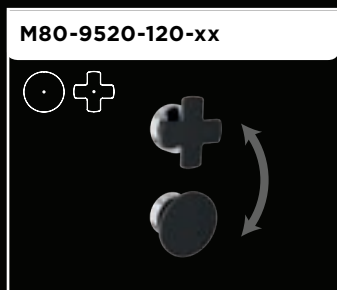

The first x is the handle base finish — chrome in this example.

The second x is the handle top finish — matte black in this example.

The finish of this example is therefore CK: chrome matte black

Handle kit for thermostatic pressure balanced shower valve with 2-way diverter

- A- Handle kit required to complete product B80-952X-00-xx and B80-953X-00-xx
- B- Comes in pair
- C- Made of brass parts

The arrow indicates that the handle trims are interchangeable and can be installed on the top or bottom of the TP valves.

## Recommendation

We recommend that the faucet CORE FINISH (code B) and the handle base (code M) be the same.

Ex: B80-9522-00-CC + M80-9520-XX0-Cx

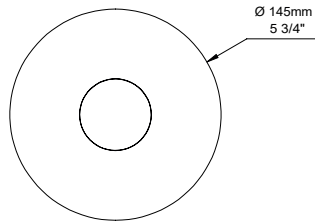

However, it is possible to mix and match finishes according to your preferences.

Actual products may differ from pictures. Actual products measures may differ from the measures shown. All CAD prices are subject to change without notice. Effective as of June 2023.

# SHOWER VALVES

3-WAY THERMOSTATIC PRESSURE BALANCED

## RVA-9531-X0-B

3-way thermostatic pressure balanced rough (shared port)

- A- 1 outlet: 7.9 gpm - 60 psi, 2 outlets: 3.7 gpm - 60 psi
- B- The best solution to minimize temperature fluctuations
- C- 3-way diverter with shared port
- D- Reversible check / non-return valves in case of water supply inversion
- E- CAR-2661-00 (temperature), CAR-9531-03 (diverter)
- F- Large depth adjustment range
- G- 1-3/8" decorative extension for thick wall or to correct deep rough-ins: order EXT-9520-30-xx

### RVA-9531-00-B

3-way type TP rough (shared port) - 1/2" male NPT or welded copper connections

3/4" VOLUME CONTROL VALVE

## RVA-2719-34-B

3/4" volume control valve rough

- A- 11.1 gpm - 60 psi
- B- On/off volume control rough valve
- C- Offers higher flow
- D- CAR-2719-34
- E- Extra long cartridge for maximum adjustment
- F- 3/4" female NPT connections
- G- Extension may be cut to the length required
- H- Counterclockwise opening

## RVA-2719-34-B

Volume control valve rough - 3/4" female NPT connections

189

## RVA-2719-34-B

3/4" volume control valve rough

- A- 11.1 gpm - 60 psi
- B- On/off volume control rough valve
- C- Offers higher flow
- D- CAR-2719-34
- E- Extra long cartridge for maximum adjustment
- F- 3/4" female NPT connections
- G- Extension may be cut to the length required
- H- Counterclockwise opening

## RVA-2719-34-B

Volume control valve rough - 3/4" female NPT connections

COMPLETE SHOWER KIT ON COLUMN

## PRO-1100-16-xx

### Complete thermostatic shower kit on column

CC	KK	LL	BB	NN/YY	VV/TT	GG
1495	2093	2841	2990	2243	3289	3738

#### Features

- A- Max: 2 gpm - 80 psi (per accessory)
- B- 3-spray hand shower
- C- 2 accessories can work together
- D- Temperature handle on the hot water inlet side, allowing the surface temperature to never exceed the shower water temperature
- E- Shower head arm adjustable up to 20" in height
- F- Easy to move metal slider with built-in hook
- G- Thermostatic cartridge: CAR-2660-00
- H- Diverter cartridge: CAR-3003-36

#### Ecological options CEC

Code	Features are the same, except:
PRO-1100-16-xx-NS	A- Max: 1.75 gpm - 80 psi (per accessory) C- 1 accessory works at a time H- Diverter cartridge: CAR-3003-36-NS

#### Features

- A- Max: 2 gpm - 80 psi (per accessory)
- B- 3-spray hand shower
- C- 2 accessories can work together
- D- Temperature handle on the hot water inlet side, allowing the surface temperature to never exceed the shower water temperature
- E- Shower head arm adjustable up to 20" in height
- F- Thermostatic cartridge: CAR-2661-00
- G- Diverter cartridge: CAR-3003-36

Ecological options	Code	Features are the same, except:
CEC	PRO-1401-03-xx-NS	A- Max: 1.75 gpm - 80 psi (per accessory) C- 1 accessory works at a time G- Diverter cartridge: CAR-3003-36-NS

#### Finishes:

CC = chrome, KK = matte black, LL = satin brass, BB = white, NN = brushed nickel, YY = polished nickel, TT = venetian bronze, VV = satin copper, GG = gold

## HAND SHOWER ON WALL-MOUNTED SUPPLY ELBOW

### DSP-2555-20-xx

CC	KK	LL	BB	NN/YY	VV/TT	GG
259	484	709	600	423	729	790

1-spray anti-limestone hand shower on wall-mounted supply elbow

**Hand shower:**

- A- Single spray pattern
- B- Easy-to-clean silicone nozzles
- C- 2 gpm - 80 psi
- D- DOU-2555-01-xx

**Wall-mounted supply elbow:**

- E- 1/2" F connection
- F- Brass elbow
- G- RAC-9001-20-xx

**Hose:**

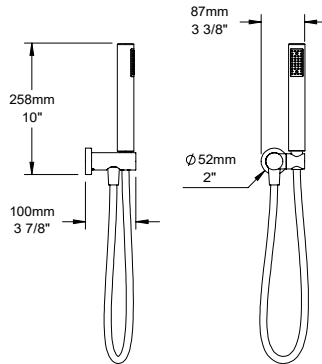

- H- Conical nut 1/2" female
- I- 59" (150 cm) double interlock flexible hose, rotating nut with 2 non-return valves
- J- PVC hose in KK finish or brass for other finishes

**Ecological options**

Codes	Reduced flow rates
DSP-2555-20-xx-150	1.5 gpm (5.7 l/min) - 80 psi
DSP-2555-20-xx-175	1.75 gpm (6.6 l/min) - 80 psi

## EXT-2600-01

60

Fittings for external thermostatic valve

A- Extension may be cut to the required length  
B- 1/2" F NPT connection

## EXT-3404-00-xx

CC	KK	LL	BB	NN/YY	VV/TT	GG
88	123	166	135	119	166	168

1-3/8" decorative extension for thick wall or to correct deep rough-ins

A- For rough valve RVA-3404-00-B only

## EXT-9520-30-xx

CC	KK	LL	BB	NN/YY	VV/TT	GG
135	199	331	218	189	331	257

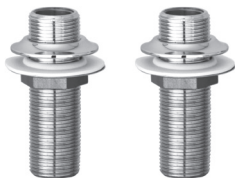

1-3/8" decorative extension for thick wall or to correct deep rough-ins

A- For the following rough valves:  
RVA-9521-x0-B, RVA-9521-x0-NS-B,  
RVA-9531-x0-B, RVA-9531-x0-NS-B

## KIT-9034-12-xx

CC	KK	LL	BB	NN/YY	VV/TT	GG
89	127	160	139	119	160	171

Wall fixture kit

A- Can be used when installing an external thermostatic valve if the fixation wall is thin  
B- 1/2" F NPT connection

**Finishes:**

CC = chrome, KK = matte black, LL = satin brass, BB = white, NN = brushed nickel, YY = polished nickel, TT = venetian bronze, VV = satin copper, GG = gold

# General Information

## Authorized retailer for BARIL

### To be an authorized retailer for BARIL, a retailer must:

- Be in a non protected territory
- Have a showroom that represents BARIL's standards
- Be accepted as an authorized retailer by BARIL's management
- Present a minimum of 20 BARIL products in the showroom
- Obtain credit approval
- Present the image and visual of BARIL
- Offer an acceptable discount to its customers

## Terms and conditions

**Price:** The prices are subject to change without notice. Taxes will be added if applicable.

**Terms of payment:** Payment terms are net 30 days. An interest charge of 2% per month (24% per year) will be charged on late payments. No delivery will be made to clients who don't comply with the terms of payment.

**Delivery:** Prices are F.O.B. from our warehouses. BARIL's responsibility ends when the merchandise is given to the carrier. Shipping claims must be made by the retailer.

### Merchandise return:

- Merchandise can't be returned without BARIL's authorization
- BARIL reserves the right to refuse a merchandise return at all times
- A 25% return fee will be charged to the client
- Merchandise must be returned in its original packaging
- Merchandise must not be damaged
- Parts with a manufacturing defect will be replaced at no charge
- BARIL will replace or repair the defective part at its discretion

### Recommendations:

BARIL recommends the use of services offered by a professional plumber for any installation or repair work. BARIL recommends that products be wiped dry after each use with a soft dry cloth to prevent water-spotting and mineral build-up.

Do not allow water to come into prolonged contact with faucet's surface, wipe down after each use. Do not allow water to accumulate at base of faucet.

BARIL recommends that products be cleaned with a mild, non-abrasive liquid soap, warm water and soft cloth.

Never use abrasive products, chemicals, corrosives that are very strong or in powder form, including toothpaste, detergents, scouring products, window cleaners and disinfectants.

Failure to give the faucet the proper care may void the warranty.

# Care Instructions

To keep your BARIL faucet looking its best, please follow these simple care instructions:

## **Do:**

1. Rinse the faucet with clear water.
2. Dry the faucet with a soft cotton cloth.

Regular and routine cleaning will allow you to maintain your faucet in good condition. Wipe dry after each use with a soft dry cotton cloth to prevent water-spotting and mineral build-up.

If heavy cleaning is required, the following procedures are recommended:

1. Remove surface dirt and film using clear water and a soft cotton cloth.
2. To remove tough surface film and build-up dirt, use a non-acidic, non-abrasive gentle liquid soap without detergent.
3. Once clean, rinse faucet with clear water to thoroughly remove cleaner and blot dry with a soft cotton cloth.

While all BARIL finishes are designed for maximum durability, failure to give your faucet the proper care may void the warranty. As a result, here are a few helpful tips:

## **Do not:**

1. Use abrasive cloths, cleaning pads or paper towels.
2. Use any abrasive cleansers (like Vim®, etc.).
3. Use any cleaning agents containing acids, polish, waxes, alcohol, ammonia, bleach, solvents or any other corrosive or harsh chemical cleansers.
4. Allow water to come into prolonged contact with faucet surface or to accumulate at base of faucet: preferably wipe down after each use.

## **Special finishes:**

24K gold is a precious and soft finish, which must be treated gently, like you would treat fine jewelry.

The other special finishes like nickel, copper, bronze, matte black, etc. are unique handcrafted finishes, created so no two finishes look exactly alike. They are living finishes, and you will be able to admire their unique look and nice aging over time.

Follow all the recommendations listed above and make sure to wipe dry after each use with a soft dry cotton cloth.

Thanks to proper care, you will enjoy the glance of BARIL faucets for years.

# Warranty

BARIL offers a limited lifetime warranty on all of its products<sup>1</sup> against any defect affecting materials or any manufacturing defect. This warranty is offered and will benefit only the original purchaser of the product, for as long as such person remains the owner of the residence of the original installation and of the product. This warranty covers residential and multi-residential projects<sup>2</sup>.

The BARIL warranty covers all finishes as long as the product has been used under normal conditions and by strictly applying the maintenance conditions described on the website at [barildesign.com/maintenance](http://barildesign.com/maintenance).

Proof of purchase or the original purchase invoice must accompany any claim submitted to BARIL.

BARIL agrees, following its analysis, to provide as a replacement, as the case may be, one or more spare parts or the same product (or, if it is no longer available, a comparable product of equivalent value).

BARIL recommends retaining the services of a professional installer, competent and able to carry out the installation strictly and only according to the instructions provided by the manufacturer.

The owner-user is responsible for access to the residence for the installation or repair of the product. BARIL's aggregate obligation under this warranty shall in no event exceed the original purchase price of the faucet.

## \*Limitations:

- This warranty is limited to original BARIL products purchased from an **authorized BARIL retailer**.
- **All electrical and/or electronic parts and/or components are covered by a limited five (5) year warranty.** Batteries are excluded from any BARIL's warranty.

- The warranty period for any product installed as part of a **hospitality project (hotel, restaurant, spa, gym) is (1) one year** from the original purchase date from an authorized BARIL retailer/distributor.
- This warranty is **not transferable**.

## \*The warranty does not cover:

- Any BARIL product cleaned with abrasive, irritating or corrosive products or more generally any product not specifically recommended for cleaning faucets;
- Any BARIL product that has **not been installed in accordance with the manufacturer's instructions and the applicable laws and codes** in force;
- Normal wear of components and finishes;
- Any **application and/or use of an industrial, institutional or commercial type not expressly mentioned above<sup>3</sup>**;
- Damage caused by or originating from:
  - The presence of hard water, lime deposits or sediment;
  - The storage of any cleaning product - household or industrial - regardless of its chemical composition or content, in the immediate environment of the BARIL product, including cabinets and vanities located under the sink and plumbing fixtures, these cleaning products may attack and corrupt the integrity of the plumbing fixtures, including their various components;
  - A disaster, natural or not, such as fire, flood, earthquake, thunder, electrical storm or any other phenomenon of the same nature;
  - Hot water with a temperature above 158°F (70°C) and/or water pressure at the tap exceeding 5.5 bars (80 psi);
  - Freezing and/or clogging of supply pipes;
  - Any other case resulting from a lack of use, negligent or abusive, or maintenance of BARIL products;

- Installation error, negligence or abusive use.
- Any BARIL product installed **outdoors** (outside a residence);
- Any BARIL products installed **outside of North America**;
- Any claim including false information, false and/or misleading statements, or voluntary or involuntary omissions about the context of the claim and/or installation of the product;
- BARIL is not responsible for any damages, losses, injuries, or costs of any kind, indirect, incidental, or consequential, including, but not limited to, loss of use, related to parts and/or products from BARIL.

**Notes and definitions:**

<sup>1</sup> The BARIL PRO line of products is covered by a separate warranty available at [barilpro.com/warranty](http://barilpro.com/warranty).

**<sup>2</sup> "RESIDENTIAL AND MULTI-RESIDENTIAL" define and include:**

- Owner-occupied houses and condos;
- Rental condos and apartments with a long-term lease of 12 months;
- Residential rental apartments for elderly people, excluding common and public areas, as well as kitchen and dining areas.

**<sup>3</sup> "INDUSTRIAL, INSTITUTIONAL AND COMMERCIAL" define and include:**

- Buildings or establishments for commercial use, where transactions are carried out with clients;
- Health network establishments (hospitals, CLSCs, medical clinics, health professionals' offices);
- Industrial establishments (e.g. warehouses, distribution centres, production plants, etc.);
- Office buildings;
- Any other public area using sanitary facilities.

**Legal provisions:**

This warranty excludes all other warranties, including, but not limited to, any mandatory warranties that relate to merchantability or fitness for use. This warranty and its limitations and exclusions may not apply to you or may apply in addition to other rights and remedies due to legal provisions applicable in certain states, provinces or countries.

Notwithstanding any provision of this warranty, BARIL shall not be liable for any punitive, special, incidental or consequential damages arising out of or in any way related to BARIL products, whether under contract, warranty, tort, statute or otherwise. Excluded damages include, but are not limited to, damages for loss of use, loss of time, inconvenience, impairment or any other loss howsoever arising. THE EXCLUSION OF INCIDENTAL AND CONSEQUENTIAL DAMAGES PROVIDED HEREIN SHALL APPLY NOTWITHSTANDING ANY OTHER TERMS OF THIS WARRANTY AND SHALL APPLY TO ALL WARRANTIES, REMEDIES AND OTHER TERMS OF THIS WARRANTY. This disclaimer shall not be construed as affecting in any way BARIL's obligations, if any, with respect to third-party claims for property damage, personal injury or death. This warranty shall not be construed as conferring any rights with respect to the foregoing.

BARIL accepts no responsibility for any labor or shipping costs as well as any damage in whole or in part caused by the improper installation of the product, its removal, its reinstallation or its repair or caused to the product as a result of the use of one or more spare parts other than BARIL's original parts. BARIL is not responsible for costs related to an installation that does not comply with the laws and codes in force at the place of installation.

The owner-user will remain solely responsible for all claims, damages, losses, liabilities, obligations and judgments, of whatever nature, including all costs and expenses, including costs and reasonable attorneys' fees relating thereto (hereinafter, collectively, "claims"), related to the BARIL product, which arises on or after the original date of purchase (including, but not limited to, any replacement parts) and during the period during which the owner-user remains the owner of the BARIL product and the residence of the original installation, and which derives directly or indirectly, in any way, from (a) the ownership of the BARIL product by the owner-user or after it, or (b) the use, possession, dispossession, repossession, control, operation or location of the BARIL product by the user owner or by a third party on the original date of purchase or after it, or (c) any condition or defect in the BARIL product, whether concealed or not, regardless of when such defect is discovered, but only with respect to claims for material damage or bodily injury are not actionable prior to the original date of purchase, to the extent such condition arose, or was discovered or reported, on or after the original date of purchase. The foregoing indemnity applies to all claims for which the owner-user is liable under the preceding sentence, whether such claims are in tort (including, but not limited to, strict liability).

# Customer Service Policies

After more than 35 years in the industry, BARIL is well known for the quality of its products and the excellence of its after-sale customer service.

## Technical support

BARIL endorses the quality of its products. If you are facing any difficulties, you can call us at 1.800.463.3871 or write us at [info@barildesign.com](mailto:info@barildesign.com) and it will be our pleasure to help you find solutions. Indeed, for any questions on our products, on installation, on different technical problems you may encounter, etc., our experts will be happy to help you. Our customer service team is trained by our products' experts who conceived those products. They know how to support you and provide you with an excellent service.

## Parts box

BARIL's authorized retailers can receive a parts box. It will be personalized according to your purchases and will provide you the most needed parts. The replacement parts are distributed free of charge to enable you to offer an excellent after-sale service to your customers.

For parts replacement, BARIL's sales representative will make sure to take back the defective parts and replace them if needed. All defective parts will be exchanged free of charge.

It is important to keep, at all times, the defective parts returned by your customer. Only parts with manufacturing defect will be replaced free of charge.

## Service call policy

In order to offer you the best after-sale service possible, here is how to proceed when making a service call. We remind you that BARIL is only responsible for the cost of the parts and does not cover fees related to products being installed and/or uninstalled.

Not only do you have the support of our representatives, but our technical service is always ready to help you with the installation or repair of a product. To make sure you get a quick answer, here is how to proceed when making a service call:

1. For each service call, please fill out the service call form with as much details as possible concerning the problem, diagnosis or solution;
2. Send the form by fax at the following number: 1.877.693.3005 or by e-mail at the following address: [info@barildesign.com](mailto:info@barildesign.com) and remember to give us all the necessary information;
3. Please send your customer's invoice with the exact product's code as well as the exact date of purchase along with the form;
4. Our employee will take the dispositions needed to accommodate your client. If the situation needs an immediate action, please specify it on the document. All service calls will be answered within 48 hours, from Monday to Friday;
5. If a replacement part is needed, it will be sent to the distributor under the name of the consumer;
6. If necessary, we will contact the consumer directly in order to help him solve his problem;
7. In the most extreme cases, a BARIL representative could go on site to evaluate the situation. If this happens and the problem is not due to a manufacturing defect of a BARIL product, the client will be charged a 50\$ fee;
8. If requested, the form will be returned to you with the confirmation of the repairs being done and the closing of the file.

For any other information, you can contact our technical department at 1.800.463.3871 or at [info@barildesign.com](mailto:info@barildesign.com).

With the desire to keep a strong partnership with our privileged clients, we know this procedure will assure you a quality after-sale service.

**Thank you for your trust,  
BARIL**

## BARIL's technical team proposes you different examples.

When a customer enters your store, you must be ready to answer all questions on our faucets.

### 01 How long does the faucet warranty last?

The faucets have a lifetime warranty against all manufacturing defects. BARIL will replace free of charge any defective part upon presentation of the invoice of purchase showing the product code and the date of purchase. A manufacturing defect usually appears during the first few months of usage.

### 02 What is covered by the warranty?

Any defective part is covered by the warranty. BARIL will replace the faulty part free of charge. An original or similar replacement part will be sent to you. The warranty does not cover shipping and handling or labor fees. Warranty is void if the installation does not comply with the rules and regulations in effect or the manufacturer's instructions. The warranty does not cover damages that occurred during installation, transport or any other accidental or indirect damage.

### 03 What is the difference between manufacture defects from the normal use of a product?

The time of purchase is a determinant factor in diagnosing a defect. Our experience taught us that a manufacture defect occurs within a year of purchase in most products. Hand sprays, shower heads, finishes and all plastic parts show defects in the first 12 months of usage. As for diverter or seal, the defect can appear within 36

months of usage. The ceramic and thermostatic cartridges should be functional for a few years. Although, you should note that after 8 years of daily usage and hard water, etc., it is reasonable to consider it of normal use and it's possible for the customer to replace its cartridge. This can be done easily and at low costs. Finishes should last for many years if you use a gentle cleaning product. All parts not under warranty can be ordered at BARIL. They will be treated as a regular order and retail price will be applied.

### 04 How to order replacement parts?

You should have the original date of purchase and the product code. This information will help you find the code of the part you need as listed in our products file on our website; [www.BARILdesign.com](http://www.BARILdesign.com). You can also find the numerated parts in the instruction manual provided in the product packaging. Regarding discontinued products, or if you have questions, problems or any other requests, you can reach BARIL's customer service. They can help you find a part code or explain what is not working properly. Once you have the part code (or the date of purchase and product code), you can send your request by fax: 1.877.693.3005, by e-mail: [info@barildesign.com](mailto:info@barildesign.com), or by phone: 1.800.463.3871. The parts under warranty are free and the parts that are not under warranty will be charged which is why it is important to provide us the date of purchase along with your order.

### 05 How do I care for the faucets?

We recommend washing your faucets with warm water and a gentle, non-abrasive liquid soap. Wipe with a soft cotton cloth. Never use products that are abrasive, corrosive, or contain chemicals, powder cleaners or heavy-duty products such as tooth paste, detergents, scouring products, window cleaners and disinfectants. Cartridges can be cleaned with a small brush under running warm water. Limestone on hand spray can be removed by letting it soak in water with a drop of vinegar. As for the anti-limestone hand spray, you can use your fingers to wipe off excess sediment. Taking good care of your faucets will keep them working for many years.

### 06 Why is ceramic the best material to make cartridges?

Ceramic is strong, tear proof and able to adjust thus providing waterproofness. Ceramic discs are made to assure maximal pressure of your faucets. Their construction allows you to turn the water on and off with a 1/4 turn movement making it user friendly.

### 07 Do you offer after-sale services?

After more than 35 years in the faucet industry, BARIL is known for its expertise and the quality of its after-sale service. For any questions regarding our products, installation, various technical problems you may encounter during installation or if you have any requests regarding

# FAQ

the use of our products, our faucet professionals will be happy to help. The members of our customer service team are trained by our products experts and designers of the BARIL faucets. We also have a Quality department in charge of limiting as much as possible faucet related problems. From design to sales, the Quality department assures the liability of the BARIL products.

## 08 Can I install the faucets myself?

BARIL recommends you to hire a professional to install all our products. This will assure you the best installation possible. For instance, making sure a sufficient water flow reaches your faucet (depending on the floor level, the various appliances connected to the water line, etc.), making sure the connections are strong and waterproof, offering you a labor warranty on the installation, etc. In short, by hiring a professional, you will avoid all kinds of problems that could occur during installation and while using your faucets. Also, the installation will be made according to the norms in effect. An installation made according to the rules and regulations insures you the warranty will be honored, if ever needed.

## 09 Is there a system within these faucets for water saving?

BARIL is sensitive to the environment and offers many eco-friendly solutions. The majority of the BARIL lavatory and kitchen faucets offer the eco-friendly option of a 1.5 gpm flow instead of the usual 2.2 gpm, this means 30 % of water saving. Shower reducers are also available to gain even more efficiency and help gain the LEED certification.

## 10 Can I replace my faucets by new ones?

It is reasonable to think that all faucets are standard. It is usually possible to update your faucets with existing connections. Make sure to get new faucets that can fill the void left by the old ones. The installation of new faucets requires access to the rough and connections. You will find a variety of options in the complementary parts that will help you install new faucets on existing sinks, basins or bathtubs. You will find decorative plates, small columns for old fashioned bathtubs, etc. The majority of the BARIL products are made so the rough and the trim are installed at the same time. It is not necessary or possible to adapt the BARIL trim to the rough product of another manufacturer. If you change your mind and wish to choose a different trim offered in the BARIL collection, it is possible to interchange some collections due to the standard settings of the rough faucet. You can contact the customer service of BARIL, if needed.

## What questions have we forgotten?

**Send us your questions and we will add them in our next catalogue edition.**
