

EV CHARGER

Under & Over voltage protection
Over-temp protection
AC & DC Fault Protection
Ground detection
Short circuit protection
Surge protection
Over Current Protection

TECHNICAL DATA

INPUT CHARACTERISTIC

Input voltage	AC208~240Vac
Input frequency	60Hz
Rated Current	up to 48A(40A, 32A, 16A adjustable)

OUTPUT CHARACTERISTIC

Maximum Current	up to 48A(40A, 32A, 16A adjustable)
Charging mode	Mode 3
Output voltage	150-1000V DC
Rated Power	48kW
Charger Connector	Cable +Type1 Connector
Standby Power Consumption	<10W

WORKING ENVIRONMENT

Ingress Protection	Type 3
Working temperature	-31°F~ 122°F
Cooling	Forced air cooling
Work Humidity	3%~95%
Altitude	Up to 2000m(6560ft)
Installation	Wall mounted

Parasol Elite Power

Protect I People I Property I Environment
