## AGREEMENT

BY SIGNING THIS WATER SYSTEM TAP-ON APPLICATION, I AGREE THAT:

it is against Georgia law to connect any other water source (a well, for example) to plumbing that is connected directly or indirectly to the City of Luthersville's water system;

the City is responsible for water distribution up to and including the water meter, but *I am entirely responsible for all water usage, water leaks, water damage, installation, maintenance, repairs, and filtration past the water meter, and the City may cut off my water until any leak that is on my side of the meter is repaired;*

the water meter is the City's property, and *tampering with it is a criminal offense;*

the City's employees, officials, and/or contractors can at any time, and without giving notice, come onto my property to repair, maintain, test, upgrade, replace, remove, or read any water meter or other City property located on my property;

the City does not have water department work crews, and this tap will be installed as soon as the City's water contractors have room in their schedules to perform the work;

the City has historically had a water supply that is rich in iron, so the City makes no guarantees that its water supply will not discolor plumbing fixtures, appliances, fabrics, or other items; and

I HAVE READ AND UNDERSTAND THIS ENTIRE DOCUMENT, I ACCEPT THE TERMS OF THIS AGREEMENT, ALL OF THE INFORMATION I HAVE PROVIDED IS FACTUAL, AND I DO NOT HAVE ANY UNANSWERED QUESTIONS.
