

FIND ME LLC

## Full Stack Developer Intern Unpaid

### Job description

Full Stack Developer (Flask, React Native, MongoDB, Python) Intern – Unpaid

### About Us:

Find Me is an innovative startup focused on creating cutting-edge applications. We are currently in the design phase and gearing up to launch our product soon. Our team is passionate about technology and driven to make a difference in the IT field. Located in the United States, we offer remote work flexibility to our team members.

We are seeking a talented **Full Stack Developer** to join our team, focusing on building and maintaining scalable web and mobile applications. The ideal candidate will have expertise in **Flask, React Native, MongoDB, and Python** to develop, deploy, and optimize full-stack applications. You will work closely with cross-functional teams to create efficient, user-friendly, and high-performance solutions

### Desired Qualifications:

We are seeking a talented full-stack developer with the following skills and qualifications:

- 3+ years of experience in Python, Flask & React Native.
- Experience with DevOps tools and CI/CD pipelines.
- Knowledge of GraphQL and WebSockets.
- Previous experience in Agile development methodologies.
- Strong proficiency in deploying models in production environments (experience with TensorFlow Lite, ONNX, or similar for mobile applications is highly desirable).
- Experience with databases (SQL and NoSQL) for storing product and store data.
- Familiarity with cloud platforms **Azure** for training and deploying models at scale.
- Excellent problem-solving skills, with a startup mindset and the ability to work independently in a fast-paced environment.
- Strong communication skills, especially when collaborating with cross-functional teams, including non-technical stakeholders.

### Responsibilities:

As a full-stack developer at Findme, you will:

- Design, develop, and maintain full-stack applications using **Flask (backend), React Native (frontend), MongoDB (database), and Python**.
- Build RESTful APIs with Flask for seamless communication between frontend and backend.
- Develop interactive and responsive mobile applications using React Native.

## FIND ME LLC

- Implement and optimize database structures in MongoDB, ensuring efficient data management and scalability.
- Integrate third-party APIs and services as needed for enhanced functionality.
- Ensure security best practices in authentication, authorization, and data protection.
- Debug, test, and troubleshoot applications to enhance performance and resolve issues.
- Collaborate with designers, product managers, and other developers to deliver high-quality solutions.
- Maintain and improve application performance, scalability, and usability.
- Stay up to date with the latest industry trends and technologies to drive innovation.
- the organization.

### Skillset required:

- Proven experience as a **Full Stack Developer** working with **Flask, React Native, MongoDB, and Python**.
- Strong understanding of RESTful API development and integration.
- Proficiency in front-end development with React Native, including component-based architecture.
- Hands-on experience with MongoDB, database design, and NoSQL concepts.
- Solid understanding of backend logic, microservices, and server-side programming.
- Experience with authentication methods (OAuth, JWT, etc.).
- Familiarity with Docker, AWS, or cloud-based deployment is a plus.
- Strong problem-solving skills and attention to detail.
- Ability to work in a fast-paced, collaborative environment.

### Benefits:

- Gain hands-on experience in product management within a startup environment.
- Opportunity to earn academic credits.
- Chance to convert this internship into a full-time role based on performance.
- Work with a dynamic and innovative team in a fast-growing startup.

### How to Apply:

To apply, please send your resume, portfolio, and a brief cover letter explaining why you're excited about this opportunity to [hr@fyndme.net](mailto:hr@fyndme.net). We look forward to seeing your work and how you can contribute to the future of retail technology.

**Note: This is an unpaid internship** with the possibility of academic credits and a potential full-time position based on performance.
