SSEEO Friends,

During these trying times, we are grateful to have your support. It is because of our passionate, dedicated and generous community, we are able to support stroke survivors and their families when they need it most. Thank you!

Below are testimonials from those who had an impact from SSEEO:

Randy Crabtree, 2014 stroke survivor and SSEEO President.

Randy connected with SSEEO while looking for answers after his stroke. He immediately felt the compassion and support of everyone in the organization.

Christina Miller, caregiver and SSEEO Board Member since 2010.

Christina's father suffered two strokes while undergoing general anesthetics for an unrelated surgical procedure. As an attorney, she saw an opportunity to give pro-bono legal advice to a small grass-roots and now 501 (c)(3) non-profit organization.

During 2020:

- SSEEO modified their ***Stroke Survivor 2 Survivor (SS2S)*** telephone peer support program to virtual procedures while still following COVID-19 and HIPPA guidelines. The pandemic has resulted in increased isolation for stroke survivors.

- SSEEEO assisted hospitals with hosting virtual stroke support groups.
- The SSEEEO Board met virtually to plan strategies for survivor needs for post-acute care and establish third-line of care partnerships.
- SSEEEO redesigned their website for easier navigation, more resources and a new podcast series.
- SSEEEO created a new Rehabilitation Committee and surveyed stroke survivors, discovering additional therapies are needed. The survey results were also virtually presented at the MSAA conference.

We would be honored if you would consider making a gift to SSEEEO to meet our fundraising goal of \$5,000, which will fund our ability to continue providing support and building new programs for stroke survivors, their families and the community.
