

Stroke Survivors Empowering Each Other, Inc. 2013 – 2014 Annual Report

A message from SSEEO's President:

Looking back over the past year, I am very proud of what we have accomplished; created a new look and format for SSEEO, designed a new website, brochure and e-newsletter, launched two new programs and have expanded many of our existing programs and resources to improve the quality of life for stroke survivors and caregivers. *There is life after stroke* and SSEEO is helping to make this become a reality in the lives of many stroke survivors.

Phyllis Weiss, SSEEO President
