

INDEX

Dynamic Symmetry: A Unifying Principle in Complex Systems Across Scales and Disciplines.....	<i>OXQ Editorial (1)</i>
Symmetry and Quantum Phenomena: Does the Theory of Dynamic Symmetry Say Anything New?...	<i>OXQ Editorial (2)</i>
The Symmetries of Symmetry: A Multidisciplinary Exploration	<i>OXQ Editorial (3)</i>
On The Nature of Time	<i>OXQ Editorial (4)</i>
The Symmetry of Order and Disorder: A Mathematical and Physical Perspective.....	<i>Mary Smith et al.</i>
Dynamic Symmetry: A Mathematical Formulation.....	<i>Mary Smith et al.</i>
Self-Similar Self-Similarity.....	Joel David Hamkins, <i>Professor of Logic, University of Oxford</i>
The Interdependence of Order and Disorder: How complexity arises in the living and the inanimate universe.....	Denis Noble CBE FRS, <i>Emeritus Professor of Cardiovascular Physiology, University of Oxford</i>
A response to Professor Noble's paper: Ordered disorder to drive physiology.....	Anant Parekh FRS, <i>Professor of Physiology, University of Oxford, with Frederick B. Parekh-Glitsch & Daniel Balowski</i>
A philosopher's perspective on the harnessing of stochasticity	Sir Anthony Kenny, <i>Balliol College, University of Oxford</i>
The Language of Symmetry in Music.....	Robert Quinney, <i>Associate Professor, Music, University of Oxford</i>
Darkness, Light, And How Symmetry Might Relate Them.....	Alan Barr, <i>Professor of Physics, University of Oxford</i>
Planetary Systems: from Symmetry to Chaos.....	Caroline Terquem, <i>Professor of Physics, University of Oxford</i>
Entropy and Symmetry in the Universe.....	Dimitra Rigopoulou, <i>Professor of Astrophysics, University of Oxford</i>
The Language of Symmetry: A Review.....	Peter L Read, <i>Department of Physics, University of Oxford</i>
The Language of Symmetry: A Review.....	Ken Peach, <i>Department of Physics, University of Oxford</i>
The art of binocular (a)symmetries.....	Nicholas J. Wade, <i>Psychology, University of Dundee</i>
The Clash Between Chaos and Symmetry in an Ancient Process: The Working of Metals.....	L. M. Brown, <i>Cavendish Laboratory, University of Cambridge</i>
