### June is "Brain Injury Awareness Month"

Each year, more than 22,000 British Columbians sustain a brain injury, with long-term impacts on health, relationships, and daily life. The injury is often invisible, but the impact is life-altering.

The Nanaimo Brain Injury Society supports people in the community with acquired brain injuries.

Join us this month at the kick-off BBQ as part of our effort to raise awareness, share stories, and help reduce the stigma around brain injury.
