UNLEASH THE POWER OF HEAVY-DUTY STAPLING.

The Big Gray Stapler by Gallagher Enterprises is a powerful tool designed for heavy-duty stapling applications, for example in the sign-making industry, and various other industries.

The Big Gray Stapler is the ideal tool for stapling sheet metal to sheet metal or polycarbonate materials for channel letters.

There are NO proprietary parts on the machine, and it uses common staples.

CAPABILITIES

- Spacious 40" x 44" work surface & 37½" throat depth provides ample space for any project
- Pneumatically-operated foot pedal leaves both hands free to smoothly guide the project beneath the stapler
- For \$14,500 plus tax and shipping, **The Big Gray Stapler** provides designers and craftsmen with the capabilities and precision they need to tackle any project, no matter its size.

Reserved Rights: Gallagher Enterprises reserves the rights from time to time, in its sole discretion and without liability, to change specifications or pricing of the equipment.
