A Practical Approach

Presented by:
Bianca Corozzo, M.S. CCC-SLP

Course Overview

This one and a half hour continuing education course is designed to equip speech therapists with the knowledge and skills needed to assess and treat clients who stutter. By learning various evidence-based techniques and treatment approaches, as well as specific activities to use in therapy sessions, participants will gain the confidence they need to help their clients communicate more fluently.

Learning Objectives

Participants in this course will:

- Describe the basic components of a fluency treatment plan.
- State 3 fluency-enhancing treatment approaches.
- Identify three specific intervention strategies that can be used during a fluency therapy session.
