

Chief Executive Connections Partners with The HighGroundHQ Foundation to Support Veterans and Their Families

Dallas, TX – December 2024 – Chief Executive Connections (CEC), a private leadership network committed to empowering executives and business leaders, is proud to announce its partnership with The **HighGroundHQ Foundation** to provide complimentary memberships for veterans and their families. This partnership underscores CEC's mission to foster leadership growth and collaboration while supporting the Foundation's mission of creating successful transitions and rewarding careers for those who have served our nation.

Founded by **Clint Bruce**, a former Navy SEAL, NFL player, and accomplished entrepreneur, The HighGroundHQ Foundation is dedicated to helping veterans achieve meaningful employment and personal success after military service. The Foundation provides invaluable resources and programs to empower veterans and their families to navigate career transitions and build rewarding futures.

This partnership highlights Chief Executive Connections' commitment to making a meaningful impact in the lives of leaders and their families. By providing complimentary memberships to the CEC private network, veterans will gain access to an exclusive community of executives and business owners who are eager to collaborate, mentor, and share valuable insights. CEC members will also have the opportunity to contribute to the success of veterans by offering guidance, opening doors to new opportunities, and fostering connections that accelerate career growth.

"Veterans embody resilience, leadership, and an unparalleled commitment to service—values that align perfectly with the ethos of Chief Executive Connections," said **Monica Coney**, Chief Ringleader and Founder of CEC. "By partnering with The HighGroundHQ Foundation, we aim to provide veterans and their families with the tools and connections they need to thrive in their professional journeys. This partnership is not just about access; it's about honoring their service by supporting their success."

Clint Bruce, Founder and Chairman of The HighGroundHQ Foundation, shared his enthusiasm for the partnership: "Leadership doesn't end when service members take off the uniform—it evolves. Chief Executive Connections offers veterans a unique platform to continue leading in new capacities. This collaboration is a natural fit as we work together to ensure that every veteran finds purpose and fulfillment in their post-military career."

Through this initiative, veterans will gain access to:

- **Chief Executive Connections' Core Offerings**, including Accountability Accelerator Groups, Advisory Board Services, and Special Interest Groups.
- A thriving community of over 125 seasoned executives and leaders who bring diverse expertise and insights.
- Monthly momentum topics and master classes designed to inspire growth, innovation, and leadership excellence.

This partnership represents a shared commitment to fostering leadership and community while addressing the unique challenges and opportunities veterans face as they transition to civilian careers. Together, Chief Executive Connections and The HighGroundHQ Foundation aim to create a brighter future for veterans and their families through collaboration, mentorship, and meaningful opportunities.
