

**STEP 1: Pay monthly tuition** (\$20) via check, mailed to TDFS, PO Box 460, Hayfork, CA 96041 OR by using our ePay links, as shown above, or PayPal. I can also take credit or debit card payments over the phone through SQUARE. While most payments will be immediately received and processed, please allow up to 24 hours after receipt of payments because of online services affected by the influx of Internet users.

**STEP 2: Sign up for membership** by creating a user profile account on [www.trinitydancefit.com](http://www.trinitydancefit.com). When your request is received, you'll be sent an email with instructions for how to complete your sign-up.

**STEP 3: Follow invitation link** (emailed to you) to complete membership sign-up. Once approved, we will grant you access to our online library of videos and tutorials.

**STEP 4: Sign into your profile** on the website.

**STEP 5: Congratulations!** You now have access to dance and fitness class videos and tutorials. Enjoy browsing our Classes pull-down menu to find the age group or dance style you are looking for. More content is added weekly, so check back and work hard so you can progress as we spiral these classes up in terms of difficulty (dance classes) or for variety (fitness classes.)

**STEP 6: "Like" each video and "SUBSCRIBE"** to our YouTube channel. This will help others find us easier and allow us to access more options through YouTube that will help us to continue to offer our services.

**NOTE:** Payment of tuition and use of website constitutes assumption of all risks associated with use of website and any or all of the content contained therein and/or provided by TDFS. It is also agreement that you will not share links by any means, or reproduce or share any videos (including transcripts and thumbnails), or link to any of our content, or use or otherwise distribute our content (images, videos, writing, proprietary teaching methods, etc.) without the expressed permission of the copyright owner. Email [trinitydancefit@gmail.com](mailto:trinitydancefit@gmail.com) for more information. We also welcome your requests for specific instruction to include in upcoming videos.
