**PETOSKEY, Michigan, June 30, 2020:** High Five Spirits takes their Award Winning and Best-Selling labels Gypsy Vodka and Petoskey Stone Gin and creates the latest and best tasting canned beverage to hit the summer 2020 market!

The new Clean Cocktails are blowing up on social media and the High Five Craft Distillery is producing the product with orders far exceeding expectations.

The Distillery located in Petoskey, Michigan created the canned beverages with one mission in mind... to create a beverage that was different from the plain old seltzer's, tastes great and is fun to drink.

"Our Clean Cocktail is different... first and foremost, its an actual cocktail. And, we were determined to change the way people look at canned beverages," say Michael Kazanowski co-founder of High Five Spirits "Our canned beverages are 8% ABV and contain no carbs with no artificial flavors. We wanted them to be clean which is how we create all of our spirits!"

Partnering with Cason Sparkling Water, The Clean Cocktails are 8% ABV, No Sugar, 0 Net Carbs with No Artificial Flavors., and gluten-free. After a year of formulating and experimenting the Cocktails were created. "We worked tirelessly to come up three awesome flavor combinations, and are really proud of the outcome." says Adam Kazanowski co-founder.

The three Clean Cocktail flavors are:

Very Berry Vodka Cocktail which is a Wildberry Pomegranate Seltzer, a cocktail full of flavor combining Gypsy Vodka with Cason's Wildberry Pomegranate Sparkling Water.

Gin & Juice Cocktail bringing in Blood Orange Juice with the Lavender-forward Petoskey Stone Gin, and Cason's Sparkling Water to make the most refreshing canned cocktail you will taste.

Clean Mule is a real Moscow Mule in a can that leaves out all the sugar. Cason Ginger Beer and Gypsy Vodka come together to bring the best mule without the 'fancy' mug.

Imperial Beverage is distributing the Canned Cocktails and they are hitting licensed liquor stores throughout Michigan. For information please see our website at [www.gypsyvodka.com](http://www.gypsyvodka.com) or contact [www.imperialbeverage.com](http://www.imperialbeverage.com).
