Elevate Administrator &  
Business Development

When I was younger I was a multi-sport athlete, including swimming, basketball, volleyball, and track. I am the mother of 6 student athletes, 2 played college basketball. 16 grandchildren, 3 great grandchildren!

Having been blessed with such a “quiver full,” my attention was drawn toward the importance of raising them in Godly principles and I have found a heightened passion for teaching our youth their true identities in Christ. New creation, accepted, secure, and significant.

Beginning of 2023 Aaron gave me the opportunity to be his part time administrator which has given me the gift to continue working with youth on a different platform... performance training.

The most rewarding part of being with Elevate Sports Performance is our Team. We are truly a family that collectively pours Life into our athletes, the parents, and each other. It's a beautiful experience working with each part of our team; Aaron, the trainers, the parents, and the athletes.

I love my job!!!! If you want to elevate your game, we are here for you!
