

# Safety Data Sheet

Product Identifier: Invisible Glass®

Stock Number: 92566

Date of the latest revision of the safety data sheet: 04-21-2017

Supercedes:

## 1 Identification

- (a) Product Identifier: Invisible Glass®  
Stock Number: 92566
- (b) Other means of identification:  
Synonyms: None Known
- (c) Recommended use and restrictions on use:  
Recommended use: Glass Cleaner  
Restrictions on use: Uses not described above.
- (d) Initial Supplier Identifier: Stoner Incorporated  
Manufacture/Distributor: 1070 Robert Fulton Hwy.  
Quarryville, PA 17566  
Tel No.: 1-800-227-5538  
Email address: customerservice@stonersolutions.com
- (e) Emergency telephone number and any restrictions on the use of that number, if applicable: 1-800-424-9300 [CHEMTREC]

## 2 Hazard identification

- (a) Classification of the hazardous product, namely the appropriate category or subcategory of the hazard class identified in Subparts 2 to 19 of Part 7 or Subparts 1 to 11 of Part 8, or a name that is its substantive equivalent, or for Subpart 20 of Part 7 and Subpart 12 of Part 8, the category of the hazard class or a description of the identified hazard:  
Flammable Liquid Category 2  
Serious Eye Damage/Eye Irritation Category 2A

(b) Information elements referred to in section 3 of Annex 3 of the GHS and in paragraphs 3(1)(d) to (f) of these Regulations for each of those categories or subcategories. If the required information element is a symbol, either the name of the symbol or the symbol itself may be used:

GHS Hazard class symbols:

Signal word:

Danger

Hazard statements:

Highly flammable liquid and vapour; Causes serious eye irritation

Precautionary statements:

# Safety Data Sheet

Product Identifier: Invisible Glass®

Stock Number: 92566

Date of the latest revision of the safety data sheet: 04-21-2017

Supercedes:

<b>Prevention:</b>	Keep away from heat/sparks/open flames/hot surfaces. No smoking. Keep container tightly closed. Ground/bond container and receiving equipment. Use explosion-proof [electrical/ventilating/lighting] equipment. Use only non-sparking tools. Take precautionary measures against static discharge. Wash thoroughly after handling. Wear protective gloves/protective clothing/eye protection/face protection.
<b>Response:</b>	IF ON SKIN (or hair): Take off immediately all contaminated clothing. Rinse skin with water/shower. IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. If eye irritation persists: Get medical advice/attention. In case of fire: Use an appropriate extinguisher (see section 5) to extinguish.
<b>Storage:</b>	Keep container tightly closed. Store in a well-ventilated place. Keep cool.
<b>Disposal:</b>	Dispose of contents/container to a suitable disposal site in accordance with local/national/international regulations.

## (c) Other hazards known to the supplier with respect to the hazardous product:

Physical hazards not otherwise classified      None Known

Health hazards not otherwise classified      None Known

## 3 Composition/information on ingredients

Chemical Name	Common name and synonyms	CAS registry number and any unique identifiers	Concentration
Water	None Known	7732-18-5	80 - 100
Proprietary hydrocarbon blend	None Known	Mixture	1-20

## 4 First-aid measures

### (a) A description of necessary first aid measures, subdivided according to the different routes of exposure (inhalation, ingestion, skin and eye contact):

**Inhalation:** Remove to fresh air. If not breathing, give artificial respiration. If breathing is difficult, give oxygen. Continue your efforts until help arrives or the victim starts to breathe on his own. Do not leave victim alone. Seek immediate medical attention. Keep the victim warm and quiet.

**Eye contact:** Immediately flush eyes gently with plenty of water for at least 15 minutes while holding eyelids apart. If symptoms persist or there is visual

Stock Number: 92566

Date of the latest revision of the safety data sheet: 04-21-2017

Supersedes:

difficulty, seek medical attention.

**Skin Contact:**

Wash clothing before reuse. Seek medical attention if symptoms persist. In case of contact, immediately wash contaminated area with plenty of water for at least 15 minutes.

**Ingestion:**

Contact a physician, medical facility, or poison control center immediately.

**(b) The most important symptoms and effects, whether acute or delayed:**

Causes serious eye irritation

**(c) An indication of immediate medical attention and special treatment needed, if necessary:**

Not available

## 5 Fire-fighting measures

**(a) Suitable and unsuitable extinguishing media:**

**Suitable extinguishing media:**

Use alcohol foam, water fog, dry chemical, or CO2.

**Unsuitable extinguishing media:**

Not available

**(b) Specific hazards arising from the hazardous product, such as the nature of any hazardous combustion:**

This product contains a component(s) that is considered a flammable liquid, which has vapors that are heavier than air and may travel along the ground or be moved by ventilation and ignited by heat, pilot lights, or other flames and ignition sources at locations distant from the material's handling point.

**(c) Special protective equipment and precautions for firefighters:**

Water is generally not effective and may spread fire; however, water spray may be used from a safe distance to cool closed containers and protect surrounding area. Although this product has a flash point below 200 F, it is an aqueous solution and does not sustain combustion. Fire fighters should wear normal protective equipment and positive-pressure self-contained breathing apparatus.

## 6 Accidental release measures

**(a) Personal precautions, protective equipment and emergency procedures:**

Not available

**(b) Methods and materials for containment and cleaning up:**

Place absorbent materials into container and close it tightly. Dispose of container properly. Clean up with absorbent material. If runoff occurs, notify authorities as required. Avoid run-off into storm sewers and ditches which may lead to natural waterways. Ventilate contaminated area. Stop or reduce discharge if it can be done safely. Wear appropriate personal protective equipment (PPE). Remove all sources of ignition.

## 7 Handling and storage

# Safety Data Sheet

Product Identifier: Invisible Glass®

Stock Number: 92566

Date of the latest revision of the safety data sheet: 04-21-2017

Supercedes:

**(a) Precautions for safe handling:** Protect container against physical damage. Do not use near ignition sources. Use with adequate ventilation. Do not store containers in excessive heat or direct sunlight. Avoid prolonged or repeated breathing of vapor. Avoid prolonged or repeated contact with skin. If ventilation is not sufficient, wear proper respiratory equipment.

**(b) Conditions for safe storage, including any incompatibilities:**  
**Conditions for safe storage:** Empty container may contain residues which are hazardous. Store in a cool, dry, well ventilated area away from all sources of ignition.

**Materials to Avoid/Chemical Incompatibility:** Not available

**8 Exposure controls/personal protection**

**(a) Control parameters, including occupational exposure limit values or biological limit values and the source of those values:**

**Canada – Alberta – Occupational Exposure Limits:**

**(b) Appropriate engineering controls:**

Local exhaust should be used in areas where exposure limits may be exceeded.

Ventilation should be adequate to prevent exposures above the limits indicated below in this section of the SDS (from known, suspected or apparent adverse effects).

**(c) Individual protection measures, such as personal protective equipment:**

**Respiratory Protection:**

Use NIOSH approved respirator where there is likelihood of inhalation of the product mist, spray or aerosol. A supplied air respirator should be used if ventilation is not sufficient to maintain exposure limits.

**Eye and face protection:**

Wear chemically resistant safety glasses with side shields when handling this product. Wear additional eye protection such as chemical splash goggles and/or face shield when the possibility exists for eye contact with splashing or spraying liquid or airborne material. Have an eye wash station available.

**Skin Protection:**

The use of chemically resistant gloves is recommended if there is any possibility of prolonged or repeated liquid contact with skin.

**Hand protection:**

Not available

**Other protective equipment:**

Not available

**General hygiene conditions:**

Wear protective gloves/protective clothing/eye protection/face protection. Wash thoroughly after handling.

## 9 Physical and chemical properties

(a) Appearance, such as physical state and colour:

Physical state: Bulk trigger bottle

Colour: Clear Colorless

(b) Odour:

Alcohol

Mild

Sharp

(c) Odour threshold:

Not available

(d) pH:

Not applicable

(e) Melting point and freezing point:

Not available

(f) Initial boiling point and boiling range:

Not available

(g) Flash point:

Not available

(h) Evaporation rate:

Not determined

(i) Flammability, in the case of solids and gases:

Not available

(j) Upper and lower flammability or explosive limits:

Upper flammable or explosive limit, % in air: 13

Lower flammable or explosive limit, % in air: 2.1

(k) Vapour pressure:

Not available

(l) Vapour density:

> 1.0

(m) Relative density:

0.985

(n) Solubility:

Complete; 100%

(o) Partition coefficient — n-octanol/water:

Not available

(p) Auto-ignition temperature:

Not available

(q) Decomposition temperature:

Not available

(r) Viscosity:

Not available

## 10 Stability and reactivity

(a) Reactivity:

Not available

(b) Chemical stability:

Stable.

(c) Possibility of hazardous reactions:

Not available

(d) Conditions to avoid, including static discharge, shock or vibration:

Strong alkalis.

Isocyanates.

Ethylene oxide.

Chlorine.

Acetaldehyde.

Date of the latest revision of the safety data sheet: 04-21-2017

Supercedes:

Strong oxidizing agents.

Acids.

Ignition sources such as open flames, sparks, static discharges or glowing metal surfaces.

Avoid contact with:

(e) Incompatible materials:

Not available

(f) Hazardous decomposition products:

Burning can produce the following combustion products: Carbon dioxide and carbon monoxide.

## 11 Toxicological information

Description of the various toxic health effects and the data used to identify those effects:

(a) Information on the likely routes of exposure (inhalation, ingestion, skin and eye contact):

Eye

(b) Symptoms related to the physical, chemical and toxicological characteristics:

Causes serious eye irritation

(c) Delayed and immediate effects, and chronic effects from short-term and long-term exposure:

Immediate effects from short term exposure:

Inhalation Toxicity:

High concentrations may cause central nervous system depression resulting in headaches, dizziness and nausea; continued inhalation may result in unconsciousness and/or death.

Skin Contact:

This material is likely to be slightly irritating to skin based on animal data. Symptoms may include redness, discomfort, drying and cracking, or rash. Skin contact may cause irritation.

Eye Contact:

Classification is based on pH and the components listed in Section 3.

Ingestion Toxicity:

Not available

Delayed and chronic effects from long term exposure:

Sensitization:

This material is untested for skin sensitization in animals.

Mutagenicity:

Not available

Carcinogenicity:

THIS PRODUCT CONTAINS NO COMPONENTS LISTED AS CARCINOGENIC BY IARC, NTP, OR OSHA 1910(Z)

STOT-single exposure:

Based on available data, the classification criteria are not met.

STOT-repeated exposure:

Based on available data, the classification criteria are not met.

Aspiration hazard:

Based on available data, the classification criteria are not met.

(d) Numerical measures of toxicity, including ATEs

Information on toxicological effects:

Acute toxicity:

ATEmix (Oral) 37.453268 mg/kg

ATEmix (Dermal) 73406.740073 mg/kg

- (b) Persistence and degradability:** No data available.  
This material (or one of its components) is readily biodegradable, meeting the 10 day window criterion.
- (c) Bioaccumulative potential:** Not available
- (d) Mobility in soil:** This material (or one of its components), dissolves in water. If it enters the soil, it will be highly mobile and may contaminate ground water.
- (e) Other adverse effects:** Not available

## 13 Disposal considerations

**Information on safe handling for disposal and methods of disposal, including any contaminated packaging:** Spent or discarded material is a hazardous waste.

## 14 Transport information

**Transportation of Dangerous Goods by land (TDG):**

- (a) UN number:** UN1993
- (b) United Nations proper shipping name as provided for in the United Nations Model Regulations:** Flammable Liquids, n.o.s.(contains ISOPROPANOL)
- (c) Transport hazard class as provided in the United Nations Model Regulations:** 3
