

Schools closed? We have your child covered! PONYSITTERS

(Please share and tag other parents)

Starting Monday, March 15, 2020 PONYSITTERS will expand to provide full day programs, Monday thru Fridays until 7pm for children 4-14 years of age.

Our CLEAN, SAFE, HEALTHY environment has long been a popular choice for parents who want the best for their children. With the discussion of schools closing, we will remain OPEN, operating within CDC guidelines while monitoring the on-going

situation.

We will continue to strictly limit the number of children enrolled to ensure the highest quality of care and personalized attention to meet the needs and interests of each of our youth participants. We welcome HOMESCHOOLERS to seize this opportunity too!

**WE ARE RE-INVENTING EDUCATION THROUGH INNOVATIVE & INTERACTIVE EXPERIENCES!**

JL Performance Horses' PONYSITTERS program will offer an exclusive Equine Studies Bridge program serving as a bridge between the academics and agricultural life on the farm. Professional academic tutoring with a certified, Masters level educator/teacher three times a week for all enrolled PONYSITTERS will be included.

**NO PRIOR HORSE EXPERIENCE IS REQUIRED!**

JL Performance Horses has provided a private horse program for children for more than five decades in the same peaceful location. We offer more actual horse time than anywhere and provide instruction in English (Hunt Seat & Dressage) and Western styles of horseback riding, Natural Horsemanship, equitation, stable management, lunge lessons, anatomy, basic veterinary and first aid, safety, horse handling, equine nutrition and more.

Children attending must be healthy and symptom free. We will continue to institute bio-security measures to maintain a CLEAN, SAFE, HEALTHY environment for your child, including frequent hand washing, use of disposable paper products and increased sanitizing environmental measures.

Please take a moment to share this post with anyone you know who could benefit from having their child's education, health and well-being preserved while they are at work.
