

# ComCat

## Nutrients for Plants and Soil

### **0-0.05-0.09** Guaranteed Analysis

Available Phosphate ( $P_2O_5$ ) 0.05%  
Soluble Potash ( $K_2O$ ) 0.09%

*Derived from: phosphoric acid, potassium nitrate.*

### ALSO CONTAINS NONPLANT FOOD INGREDIENTS

0.24% Saponins  
90.0% Dextrose (microbe food)

### General Information

ComCat contains nutrients for soil and foliar applications.  
ComCat may enhance seed germination and root growth.

### How to use

- ComCat can be applied through foliar spray or irrigation systems. ComCat is compatible with most modern fungicides, insecticides and fertilizer materials.
- Application dosage: 0.5 to 1.5 oz per acre. Dissolve ComCat in water and dilute prior to use.
- Apply diluted ComCat to seed or root prior to planting.
- Apply during 3-4 leaves, before flowering and after flowering.

### Storage

Store the product in a dry cool location.  
Avoid excess moisture and heat.

*Information regarding the contents and levels of metals in this product is available on the internet at <https://sgcropsolutions.com/heavy-metal>*

### Available packages

100g, 1000g, 25kg.

# ComCat

## *Nutrients for Plants and Soil*

### Description

ComCat is a bio-extract derived from wild plant which promotes root growth and seed germination

### Key advantages

- ComCat is very easy to use and can be mixed with most modern fungicides, insecticides, and fertilizers.
- ComCat is suitable for all ornamental plants, lawns, fruits and vegetables in the house and garden.
- Our patented plant extract has been used successfully for many years around the world in a wide variety of agricultural crops and in professional lawn care.

### Mixing Instructions

- ComCat can be applied through sprinkler foliar spray or irrigation systems. It can be applied together with most modern fungicides, insecticides and fertilizers.
- Apply 1-2 oz per acre or dilute 1:7,500 to 10,000 in water for seed treatment, foliar, or drip.
- Apply during 2-3 times during the growing season: early spring/3-4 leaves, before flowering, and after flowering/during fruit formation.

### Warnings

- Do not leave the powder or mixture standing in the sun.
- Store at room temperature in a dry area for a maximum of 2 years from the date of production.

| SECTION 3  |  | HAZARDS IDENTIFICATION  |                                   |
| <b>EMERGENCY OVERVIEW: Generally regarded as safe in pharmaceutical or food sector</b>   |  |   |                                   |
| <b>Caution:</b> May cause eye, skin, and respiratory tract irritation. The toxicological properties of this material have not been fully investigated. |  |   |                                   |
| <b>Target Organs:</b>  | -  | <b>Eye:</b>   | May cause irritation, not harmful |
| <b>Ingestion:</b>  | Not an irritant, not harmful.  | <b>Skin:</b>  | Not an irritant, not harmful.     |
| <b>Inhalation:</b>   | May cause respiratory tract irritation, not harmful.   | <b>Chronic:</b>   | -                                 |
| SECTION 4  |  | FIRST AID MEASURES  |                                   |
| <b>Eyes:</b>   | Immediately flush eyes with plenty of water for at least 15 minutes, occasionally lifting the upper and lower eyelids. If irritation develops, get medical aid.          |   |                                   |
| <b>Skin:</b>   | No harmful effect on skin. Medical aid required only if unexpected irritation develops or persists.  |   |                                   |
| <b>Ingestion:</b>  | Get medical aid if irritation or symptoms occur.   |   |                                   |
| <b>Inhalation:</b>   | Remove from exposure and move to fresh air immediately. If breathing is difficult, give oxygen. Get medical aid if cough or other symptoms appear.                       |   |                                   |
| <b>Notes to Physician:</b> Treat symptomatically and supportively.   |  |   |                                   |
| SECTION 5  |  | FIRE AND EXPLOSION HAZARD DATA                                    |                                   |
| <b>Flash Point (Method Used):</b>  | non-flammable  | <b>Flammable Limits:</b>  | no information                    |
| <b>Extinguishing Media:</b>  | water spray, CO <sub>2</sub> , dry chemical (ABC), alcohol foam  | <b>LEL:</b>   | no information                    |
|  |  | <b>UEL:</b>   | no information                    |
| <b>Special Fire Fighting Procedures:</b>   | As in any fire conditions, wear full protective clothing and a NIOSH-approved self-contained breathing apparatus. Use flooding amounts of water in early stages of fire. |   |                                   |
| <b>Unusual Fire and Explosion Hazards:</b>   | As with most fluids containing an organic phase, fire is unlikely but possible at elevated temperatures.   |   |                                   |

| <b>SECTION 6</b>                               |  | <b>ACCIDENTAL RELEASE MEASURES</b>            |                 |                          |  |
|--|--|---|-----------------|--------------------------|--|
| <b>General:</b>                                | Avoid inhaling of dust.<br>Use proper personal protective equipment as indicated in Section 8. Not harmful   |   |                 |                          |  |
| <b>Spills/Leaks:</b>                           | Dilute spill with water - flush to sewer with copious amounts of water. Provide ventilation. This liquid is not harmful to the environment.                                    |   |                 |                          |  |
| <b>SECTION 7</b>                               |  | <b>HANDLING AND STORAGE</b>                   |                 |                          |  |
| <b>Handling:</b>                               | Use with adequate ventilation. Avoid contact with eyes. Avoid ingestion and inhalation.  |   |                 |                          |  |
| <b>Storage:</b>                                | Do not store in direct sunlight. Store in a tightly closed container. Store in a dry area. Store at ambient temperature. Keep container closed when not in use.                |   |                 |                          |  |
| <b>SECTION 8</b>                               |  | <b>EXPOSURE CONTROLS, PERSONAL PROTECTION</b> |                 |                          |  |
| <b>Engineering Controls:</b>                   | Facilities storing or utilizing this material should be equipped with an eyewash facility. A safety shower is not required. Use adequate ventilation.                          |   |                 |                          |  |
| <b>Exposure Limits</b>                         | Mixture: ComCat  | <b>ACGIH</b>                                  | <b>NIOSH</b>    | <b>OSHA - Final PELs</b> |  |
|  |  | none listed                                   | none listed     | none listed              |  |
| <b>OSHA Vacated PELs:</b>                      | No OSHA Vacated PELs are listed for this mixture.  |   |                 |                          |  |
| <b>Personal Protective Equipment:</b>          |  |   |                 |                          |  |
| <b>Eyes:</b>                                   | Although not required, appropriate protective eyeglasses may be worn as described by OSHA's eye and face protection regulations in 29 CFR 1910.133 or European Standard EN166. |   |                 |                          |  |
| <b>Skin:</b>                                   | No gloves are necessary.   |   |                 |                          |  |
| <b>Clothing:</b>                               | No specific safety wear is required.   |   |                 |                          |  |
| <b>Respirators:</b>                            | Respiratory protection program is required.  |   |                 |                          |  |
| <b>Other Precautions:</b>                      | Wash after handling. Use with adequate ventilation. Avoid ingestion of large volumes.  |   |                 |                          |  |
| <b>SECTION 9</b>                               |  | <b>PHYSICAL AND CHEMICAL PROPERTIES</b>       |                 |                          |  |
| <b>Physical State:</b>                         | Powder   | <b>Odor:</b>                                  | odorless        |                          |  |
| <b>Vapor Pressure:</b>                         | grayish  | <b>pH:</b>                                    | 4.5-7.0         |                          |  |
| <b>Vapor Density:</b>                          | Not available  | <b>Evaporation Rate:</b>                      | Not available   |                          |  |
| <b>Viscosity:</b>                              | Not available  | <b>Melting Point:</b>                         | 202°C (396°F)   |                          |  |
| <b>Solubility:</b>                             | Water powder   | <b>Freezing Point:</b>                        | Not available C |                          |  |
| <b>Specific Gravity/Density:</b>               | 1.525 g/cm <sup>3</sup> @ 20 °C  | <b>Molecular Weight:</b>                      | Not applicable  |                          |  |
| <b>Ventilation (General):</b>                  | Adequate local or general exhaust.   | <b>Eye Protection:</b>                        | None required.  |                          |  |
| <b>Work / Hygienic Practices:</b>              | Wash thoroughly after handling.  |   |                 |                          |  |
| <b>Other Protective Clothing or Equipment:</b> | None required.   |   |                 |                          |  |
| <b>SECTION 10</b>                              |  | <b>STABILITY AND REACTIVITY</b>               |                 |                          |  |
| <b>Chemical Stability:</b>                     | Stable under normal temperature and pressures.   |   |                 |                          |  |
| <b>Conditions to Avoid:</b>                    | Excessive temperature or heat  |   |                 |                          |  |
| <b>Incompatibilities with Other Materials:</b> | Strong oxidizing agents.   |   |                 |                          |  |
| <b>Hazardous Polymerization:</b>               | no   |   |                 |                          |  |
| <b>Hazardous Decomposition Products:</b>       | CO, CO <sub>2</sub> on decomposition   |   |                 |                          |  |

|---|--|----------------------------------|--|
| <b>RTECS#:</b>  |  |                                  |  |
| <b>CAS#</b>   | A mixture; no single CAS#  |                                  |  |
| <b>LD50/LC50:</b>   | Not available  |                                  |  |
| <b>Carcinogenicity:</b>   | Not carcinogenic according to AEMES testing. Not listed by ACGIH, IARC, NTP, or CA Prop 65                           |                                  |  |
| <b>Epidemiology:</b>  | No information found   |                                  |  |
| <b>Teratogenicity:</b>  | Not teratogenic effects in experimental animals (mice/rats).   |                                  |  |
| <b>Reproductive Effects:</b>  | No adverse reproductive effects have occurred in experimental animals.   |                                  |  |
| <b>Mutagenicity:</b>  | No mutagenic effects have occurred in experimental animals and not mutagenic according to AEMES test.                |                                  |  |
| <b>Neurotoxicity:</b>   | No information found   |                                  |  |
| <b>Other Studies:</b>   |  |                                  |  |
| <hr/>   |  |                                  |  |
| <b>SECTION 12</b>   |  | <b>ECOLOGICAL INFORMATION</b>    |  |
| <b>Ecotoxicity:</b>   | Not thought to be ecotoxic. No formal or hard data available. No information available.                              |                                  |  |
| <b>Environmental:</b>   | Expected to be environmentally friendly, including fish and bees, based on ingredients but no formal data available. |                                  |  |
| <b>Physical:</b>  | No information available.  |                                  |  |
| <b>Other:</b>   | Can be emptied into drains.  |                                  |  |
| <hr/>   |  |                                  |  |
| <b>SECTION 13</b>   |  | <b>DISPOSAL CONSIDERATIONS</b>   |  |
| The ingredients of the products are not listed amongst chemicals classified for disposal of hazardous waste. Chemical waste generators must determine whether a discarded chemical is classified as a hazardous waste. US EPA guidelines for the classification determination are listed in 40 CFR Parts 261,3. Additionally, waste generators must consult state and local hazardous waste regulations to ensure complete and accurate classification. |  |                                  |  |
| <b>RCRA P-Series:</b>   | None listed.   |                                  |  |
| <b>RCRA U-Series:</b>   | None listed.   |                                  |  |
| <b>Other:</b>   |  |                                  |  |
| <hr/>   |  |                                  |  |
| <b>SECTION 14</b>   |  | <b>TRANSPORT INFORMATION</b>     |  |
| <b>Shipping Name:</b>   |  |                                  |  |
| <b>Hazard Class:</b>  | Not regulated as Hazardous   | Non-dangerous goods              |  |
| <b>UN Number:</b>   | Non-dangerous, therefore no UN number  |                                  |  |
| <b>Packing Group:</b>   | N1   |                                  |  |
| <hr/>   |  |                                  |  |

| <b>SECTION 15</b>   |  | <b>ACCIDENTAL RELEASE MEASURES</b> |
|---|--|------------------------------------|
| US Federal  | Not listed on the US Federal inventory.  |                                    |
| TSCA  | Not listed on the TSCA inventory.  |                                    |
| <b>Health &amp; Safety Reporting</b>                      | None of the ingredients /chemicals are on the Health & Safety Reporting List.  |                                    |
| <b>Chemical Test Rules</b>                                | None of the chemicals in this product are under a Chemical Test Rule.  |                                    |
| <b>Section 12b</b>  | None of the chemicals are listed under TSCA Section 12b.   |                                    |
| <b>TSCA Significant New Use Rule</b>                      | None of the chemicals in this material have a SNUR under TSCA.   |                                    |
| <b>CERCLA Hazardous Substances and corresponding RQs</b>  | None of the chemicals in this material have an RQ.   |                                    |
| <b>SARA Section 302 Extremely Hazardous Substances</b>    | None of the chemicals in this product have a TPQ.  |                                    |
| <b>Section 313</b>  | No chemicals are reportable under Section 313.   |                                    |
| <b>Clean Air Act:</b>                                     | This material does not contain any hazardous air pollutants. This material does not contain any Class 1 Ozone depleters. This material does not contain any Class 2 Ozone depleters.   |                                    |
