

A GLOBAL HEALTH & SUSTAINABILITY HUB

ECO QUALITY SOLUTIONS®

Authorized Exclusive Manufacturer-Distributor in the USA & its Territories for ProBiotec BV & SG Crop Solutions

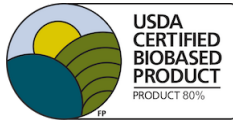

CAPABILITY STATEMENT

Eco Quality Solutions® (EQS®) is a sustainable biotechnology company that specializes in:

- Eco-friendly, professional-grade Microbial-Based Cleaning Products (MBCPs) with active probiotics that harness the ‘power of nature’ (beneficial bacteria) to offer a deeper, more sustainable clean for household, industrial and institutional use.
- Eco-friendly, commercial-grade soil & plant amendments that contain “biologicals” derived from living organisms for applications in agriculture, horticulture, nurseries, home gardens, landscaping, groundskeeping & maintenance (lawn, golf, turf).

DIFFERENTIATORS

- World-Wide Patents
- ISO 9001 Certification
- USDA Certified Biobased Product
- Green Seal Certified Brand
- American Cleaning Institute (ACI) Member

- Organic Materials Review Institute (OMRI) Listed®
- CA Dept of Food & Agriculture (CDFA) Registered

EQS - VENDOR INFORMATION

- D-U-N-S Number: 117902715
- CAGE Code: 8Z8D0 | SAM UEI: C295BRJ2BJ95
- Certified as a SDVOSB
- Certified as a SDVBE by NaVOBA

NAICS CODES

PRIMARY-423850-Service Establishment Equipment & Supplies Merchant Wholesalers

- 325612-Polish & Sanitation Good Manufacturing
- 424690-Other Chemical & Allied Products

PRIMARY- 325314-Fertilizer (Mixing Only) Manufacturing

- 325311-Fertilizer, Natural Organic, Manufacturing
- 424910-Farm Supplies Merchant Wholesalers
- 115112-Soil Preparation, Planting & Cultivating
- 561730-Landscaping Services

FEATURED “BIOLOGICALS”

- **ComCat 0** – Improved organic formula (CFDA OIM Approved & OMRI Listed). Plant-based amendment for soil and crops. Due to the surfactant activity of saponins, may improve soil water penetration leading to enhanced root and plant growth & provide food for microbes.
- **ComCat** – Nutrient for soil and foliar that may enhance seed germination and root growth
- **CibuSil S** – Beneficial nutrient supplement for plants. High concentration of plant-available silica
- **EcoFlora** – Microbial inoculant (CFDA OIM Approved & OMRI Listed)
- **EcoFungi** - Mycorrhizae root inoculant (CFDA OIM Approved & OMRI Listed)
- **AnnGrow** – A penetrant for use with liquid or water soluble powdered agricultural compounds
- **Lucky Plant** – A water-soluble magnesium and sulfur fertilizer that can be applied to lawns, flowers, green plants, fruits & vegetables
