Smart Cleaning Innovations for Sustainable Living

EQS is a science-driven biotech engaged in the commercialization of eco-friendly microbial-based cleaning products with active probiotics into the U.S. consumer, industrial and institutional markets. Our non-toxic products are manufactured according to the highest environment, health and safety standards. EQS is committed to harnessing the power of nature for a more sustainable clean, and leveraging advances in biotechnology to reduce the environmental impact of the consumer cleaning products industry.

Really Green. Really Clean

EQS' Lilly Cleaners

Market Size & Growth

- The global green cleaning products market was valued at around USD 270.89 billion in 2022 and is predicted to reach USD 430.61 billion by 2030, with a compound annual growth rate (CAGR) of roughly 5.96% between 2023 and 2030.
- This means that the market is expected to nearly double in size within the next eight years.

Strategies for Success

- World-wide patent of core technology
- Green Seal Certified facility services
- Lab & in-situ tested & continuous R&D
- Product life-cycle fully in-house; Stable product quality & wide product range
- Free of harmful chemicals, including PFAS & VOCs
- Certifications under Green Seal's GS-37 and GS-8 standards, USDA BioPreferred program, and Ecocert's rigorous guidelines showcase a commitment to quality and sustainability, with ingredients approved by all three respected third parties.

Tomorrow's Cleaning

Product Benefits

- Extended cleaning and maintenance of clean conditions across different matter types
- Odor mitigation and control
- Sustained cleaning activity
- Ability to actively and effectively clean deep pores, cracks and crevices inaccessible standard cleaning

Why EQS Probiotics?

- Versatility (Selected blend of Bacillus Subtilis spores)
- Environmentally-friendlier
- Resilience (includes the additional benefit of a stable and long shelf-life)
- Wide array of enzyme production
- More efficient
- Protect your health
