

CAPABILITY STATEMENT

ECO QUALITY SOLUTIONS

Contact Person: Gus Pappas, CEO
T: 626-429-8405 | E: gus@ecoqualitysolutions.com

Core Competencies

Eco Quality Solutions specializes in environmentally friendly Microbial-Based Cleaning Products (MBCPs) with active probiotics. Our non-toxic products are manufactured according to the highest environment, health and safety standards. EQS® is committed to harnessing the power of nature for a more sustainable clean and leveraging advances in biotechnology to reduce the environmental impact of the consumer cleaning products industry.

- World-wide patent of core technology 
- Green Seal certified facility services
- Lab & in-situ tested
- Product life-cycle fully-in-house
- Stable product quality
- Wide product range
- Continuous R&D
- Free of PFAS & other harmful chemicals

Past Performance

EQS has a proven track record of success in completing government contracts on time and within budget. Past performance information available upon request.

Differentiators

- Microbial-based cleaning products: EQS is a pioneer in the use of Bacillus-based cleaning products.
- Commitment to sustainability: EQS is committed to developing and providing sustainable cleaning products.
- Strong leadership team: EQS is led by a team of experienced and respected leaders.
- Focus on innovation: EQS is constantly looking for new and better ways to develop and market its products.

CAPABILITY STATEMENT

ECO QUALITY SOLUTIONS

Contact Person: Gus Pappas, CEO
T: 626-429-8405 | E: gus@ecoqualitysolutions.com

Core Competencies

Eco Quality Solutions is a research-driven company dedicated to developing and commercializing microbial solutions for industrial, institutional, and environmental applications.

Bio-Balance Urinal Tablets

Bio-Balance Urinal Tablets come in the form of easy to use, 4 Gram salt pressed tablets. Tablets provide an efficient, multi-strain *Bacillus* blend scientifically selected to serve a wide range of institutional and industrial applications in a multitude of different industries.

FEATURES	INDUSTRIAL APPLICATIONS
<ul style="list-style-type: none"> Water soluble package Aerobic/facultative anaerobes Produces multiple enzymes All natural, non-toxic Highly active (400 WSP) Each 4g tablet contains 2 Billion Spores 	<ul style="list-style-type: none"> General Purpose Drains Wastewaters Soils Washing Machines Showerstubs

BENEFITS
<ul style="list-style-type: none"> Easy to use, pre-measured product Breaks down and digests solids and odor causing compounds Safe for the environment Stable product of superior quality with consistent concentration of bacteria Bacillus thrive in a wide range of conditions

Active Ingredients	Bacillus Bacteria
Concentration	2 Billion CFU/g
Shelf Life	Two Years
Physical Properties	Form: Tablet Color: White
Storage & Handling	Soluble

Urinals - 1 tablet per day

Bio-Balance SepticPac

Bio-Balance SepticPac comes in the form of easy to use, 25-gram water soluble packages (WSP). Each WSP is filled with an efficient, multi-strain *Bacillus* blend scientifically selected for their ability to break down organic material that can accumulate in septic systems.

FEATURES	INDUSTRIAL APPLICATIONS
<ul style="list-style-type: none"> Water soluble package Aerobic/facultative anaerobes Produces multiple enzymes All natural, non-toxic Most effective <i>Bacillus</i> blend for septic systems 	<ul style="list-style-type: none"> Septic Treatments RV Holding Tanks Portable Potties

BENEFITS
<ul style="list-style-type: none"> Easy to use, pre-measured product Effectively degrades accumulated organic material in septic systems Breaks down and digests solids and odor causing compounds Safe for the environment Stable product of superior quality with consistent concentration of bacteria Bacillus thrive in a wide range of conditions

Active Ingredients	Bacillus Bacteria
Concentration	2 Billion CFU/g
Shelf Life	Two Years
Physical Properties	Form: Powder (WSP) Color: Tan
Storage & Handling	25g pack (400 WSP)

Past Performance

EQS has a proven track record of success in completing government contracts on time and within budget. Past performance information available upon request.

U.S. Department of Veterans Affairs
National Cemetery Administration

Differentiators

Science-Driven Microbial Solutions to Septic Tank Treatment. EQS shines in challenging environments. From nuclear submarines and aircraft carriers to porta-potties, grease traps, lift stations, and wastewater treatment plants, its concentrated formula tackles tough organic loads, eliminating odors and enhancing system performance.

ECO QUALITY SOLUTIONS

Contact Person: Gus Pappas, CEO
T: 626-429-8405 | E: gus@ecoqualitysolutions.com

Core Competencies

Eco Quality Solutions, with Nason Solar as a trusted partner, empowers businesses and organizations to achieve energy independence through comprehensive, eco-friendly solar solutions. We're more than installers, we're your one-stop solar shop.

- Expert Repair: Breathe new life into existing systems with fast and reliable repair services.
- Custom Installations: We don't believe in cookie-cutter solutions. Get a tailor-made solar system designed for your unique needs and budget.
- Cutting-edge Technology: We use the latest innovations in solar panels, battery storage (portable), and electric panels for maximum efficiency and performance
- Battery Backup: Enjoy uninterrupted power even during outages with seamlessly integrated battery storage systems.
- Electric Panel Upgrades: Ensure safe solar power with an expert electric panel upgrade.
- Recycle Old Solar Panels: Swap outdated panels for new; savings guaranteed.

Past Performance

A proven track record of success in completing government contracts on time and within budget. Past performance information available upon request.

Differentiators

- Product and Technology:
 - High-efficiency panels
 - Innovative technologies
 - Sustainable practices
- Top-notch Customer Service
