More bang for the buck, co-op advertising allows you to stretch your advertising dollars.

All American Network promotes community ideals through a series of community events. These events are publicized with posters and brochures in addition to the regular media, such as television, radio newspapers and print.

Our programs bring people into your business looking for information contained on these posters and brochures. They will return many times during a promotion. Impulse power is real, ask any good merchandiser, a point of purchase display, an end cap, preeminent shelf or store location sell many millions of dollars in goods and services each year. A poster or rack at the proper location can drive traffic past a certain point, on a daily basis.

All American Woman

All American Network has designed a program to create a local celebrity from among the women of each community.

There will be a public search conducted to find a woman of character and community morals, a woman who wants more from life and is willing to trade something of value for something of value in order to achieve her goals. She will be selected at a public celebration and introduced to the local community.

All American Network will pay this woman for her year of service and train her in the technical skills of marketing, advertising and public relations. She will profit from helping others help themselves.

She will be seen, heard, photographed and followed across the entire community for a full year of celebrity appearances. She will earn in the top 10% of the achievers in her community. She will be a celebrity who was created very publicly and serves in a very public manner during the year she reigns as each communities own “**All American Woman**”.

All American Network

Auctions and the **All American Network** has designed a program where a business can utilize an item from their inventory to promote business for a three-month period.

A Business selects a good or service provided by his/her firm for use in an auction to be staged each 90 days. All American Network prints script money, secures a location, arranges all details and publicity for this auction and informs the public that participating businesses are giving away a bunch of goodies, free, absolutely free, so come by and see. While they are looking they are told that the script required to make a purchase is to be distributed over the next 90 days from the participating businesses.

A different bill each day, etc. Monday \$100.00, Tuesday \$50.00, Wednesday \$20.00, Thursday \$10.00, Friday \$5.00, Saturday \$2.00 and Sunday \$1.00, and that as many bills as they wish may be had without cost by simply walking into participating merchants places of business and picking up one bill. Each 90 days, All American Network stages an event where all merchandise is displayed and the auction begins. All the accumulated bills derived from stopping in, are used to bid on the things donated by the area businesses.

Civic clubs, churches and other groups are invited to participate by manning booths with activities where they can promote their projects. All American Network provides contests and games for the public to play. Script money is needed to make purchases at the auction, whoever has the most money can buy the best items. **MORE MONEY** is available at participating businesses, go there and get some. One item per business each 90 days. Small cost to participate, lots of repeat traffic.

Explain that their input into this selection makes it possible to use this person throughout the business community for the coming year.

Their help in the selection process assures people that this person is indeed an acceptable role model for the community. It is very important that people see the leaders in this community show an interest in developing positive role models. We will be booking these people to speak and appear at schools, civic functions and trade associations through out the coming year.

UNITED FAMILIES ARE THE ROCK THIS GREAT NATION IS BUILT UPON

Families hold this nation together as the cornerstone of a truly unique society whose complex web is constantly expanding towards new horizons.

Despite the myriad differences in our individual multicultural makeup and the wonderful variety of our origins and personal desires, most Americans share an unshakable faith that families will nurture, preserve and pass on to their succeeding generations, the important values that we believe in and cherish so deeply.

These values are the crucial platform upon which we have founded our constitutional freedoms, and it is within our families that we learn the first lessons of God, the human dignity and unlimited potential of man, the quest for love, our need for discipline, and the relationship between our rights and attendant responsibilities.

Our families offer us examples of these lessons as they are put into practice through the communities in which they thrive. By teaching our children, as well as caring for our elderly, families contribute immeasurably to the nation's wealth and health: These are the vital forces we must harness in order to direct the course of our future.

Crime, unemployment, homelessness, substance abuse, the pervasive sense of confusion; these issues have been transformed from concerns of an occasional nature, to everyday challenges in our homes and our communities.

Selecting the hotel

Without a fixed date for the Search and the Celebration everything else is just an idea. Setting the date and location of your area wide competition sets everything else in motion.

Hotels are trying to sell sleeping rooms. You are buying sleeping rooms.

If your area is large enough to support an event, you will use at least 1 room for each two contestants during the search week, and 1 room for each finalist during the celebration week.

Add to this the sponsors, well wishers, advertisers, family, friends and others that will want to be a part of this event you will be bringing just what the hotel is looking for.

We suggest that the search be held around the first week in April.

It will require sleeping rooms from Wednesday through Saturday nights along with breakfast & luncheons.

It will require an exhibit room from Wednesday AM until Saturday PM

People possibly interested in rooms;

Sponsors

Photographers

Hair Dressers

Co-op Merchants

Co-sponsors

Meet the candidates booths / Judges

Friday & Saturday will require a ballroom for the event itself. See floor plan

This gives you three months until the fourth of July, where your contestants will participate in local festivities.

Remember you are part of a system, and you will be expected to have completed your selection process in time to have your winner at the next level of competition.

You will also need a few weeks to make money, gain publicity and time for the participants to solicit their sponsors for their expenses before you come to the next level of competition.

Perhaps several merchants in your area can sponsor a parade float.

Sponsored photography events, walk-about and other public appearances should be scheduled to gain public awareness and support.

The civic clubs, schools, associations and groups should be contacted about personal appearances and speaking engagements.

Immediately after the Search Event in April, all the 12 finalists will be looking to acquire financial sponsorships. This will be made easier if you keep everyone public during the pre search period.

We suggest that all citywide Celebrations be held the first week after the fourth of July.

You will need hotel rooms for each of the twelve finalists.

They may have a family member or assistant helping them in the finals also staying in their room.

The contestants that did not make it as a finalist may participate in the festivities during the Celebration week if they so choose.

Get a package price for rooms, one to the room, two to the room and four to the room prices.

Breakfast and luncheons are very important for the contestants and sponsors

Luncheons are show off time.

You will also need a rehearsal room, a photography room and a judging room for each day of the week beginning Tuesday AM.

The judging room can be used for press interviews as well.

Remember; the city search events are in April, the city celebration events are in July, the metro-area celebrations are held in September, the state celebrations are held in October, and the national celebration is held in November.

You will want to be a part of all of these. Plan for them. You will attend as a winner; someone will leave as a big winner.

The prize fund is for helping keep real winners in the system. One of our city directors will share in the grand prize.

Home Town America

In each of the 128,000 cities and towns located in the 3,138 counties, parishes and unincorporated places we call America, there are people who could be reached with a positive message of personal improvement and community involvement. 18,000 of these cities have more than 1,000 people who call it home.

The programs and activities of the All American Network are designed and patterned after some of the most successful promotional activities in use in America today.

They all promote positive lifestyles and the individuals right to seek Life, Liberty and Happiness in a manner of their own choosing.

In light of current world conditions, it is important that common sense values are exposed to our society in as positive manner as is possible. We the people need to insure that our children and grandchildren will enjoy the same constitutional rights, hard earned privileges and American Way of freedom that they have.

Are you concerned that "things are getting worse?"

Do you feel the need to take action to regain control of your destiny?

How much time do you think we have left to restore this country to the great nation it was intended to be? We offer a positive approach to negative situations.

This Has Been A Great Country

It is difficult to imagine our country without remembering the bravery, determination, commitment and spirit of our past. We have fought in two great world wars, survived civil strife that has ruined lesser countries, built from scratch one of the great industrial powers on the planet, and at the same time, tried to live our daily lives in a moral and fair manner.

The Country Is Under Siege

Crime, drugs, hate, poverty and mass frustration are claiming a larger portion of our people on a daily basis. The individual has lost direction, the home is under attack at the moral foundations, our communities are divided by prejudices, any form of religious teaching is being delegated as a private matter and cannot be shared along with the secular views in public schools, our young are being denied the opportunity to choose from a fair presentation of the issues, the education system is failing to produce entrepreneurs fast enough to fill the need for jobs. Yes, we have a problem.

It Can Be Different

We could be building stronger, more competent individuals in defense against gang or them-vs-us mentality, we could be building family values as a defense against deadly morals, we could be building stronger economic programs as a defense against poverty and the other frustrations that drive many people to quit, give up, and drop out.

Are You Looking

If you are looking for a plan or program to help our country and deliver it to our children and grandchildren as a great place to live, then we invite you to learn about our outstanding programs.

Home Town America Programs & Activities

We are seeking founders in each community in America to present our programs and opportunities to the rest of the community.

Once a chapter is founded, we seek Patrons to direct the different seasonal-year around activities of the chapter.

Other people may join our group, but as members, not owners, there are also volunteer opportunities. Even these volunteer positions pay "something of value in exchange for something of value". The primary difference between this service club concept and others is that the individual is encouraged to ask, "What Is In This For Me?" Will I derive a profit? No sense of guilt that asks "What are you doing for others less fortunate", but a sense of being profitable while doing something good.

Getting Involved In Your Community

It starts with one, you. Then others (Patrons) who share the same vision of a more fulfilling lifestyle, Helping Others Help Themselves. People willing to trade "Something Of Value For Something Of Value", your time and commitment to "Make A Difference" in your community. We will come to your area to present our opportunities to your group. You need people that want to make a difference, committed to doing something productive with their time, energies and money. Our programs are hands on, hearts in, happiness generating events. They also generate large sums of money for our founders.

Community Action Programs

Our programs involve in the local business community. Our programs teach skills that will benefit any business or entrepreneurial activity. Advertising, public relations and marketing techniques that will help in creating alliances with other business people on a continual basis. Our programs will add positive numbers to the bottom line.

You will generate the funds required to be able to build family training centers, fund sports teams, mentor fatherless children and help the widows and challenged individuals in your community. Our programs offer high returns for minimal efforts. Most of all, the programs are not begging from your community for support but an offer to exchange something of value in exchange for something of value. We offer a year-round series of community wide promotions. You can make a difference.

Volunteers

Your chapter works as a steering committee for volunteers on each of your projects. Our program is for leaders. All activities are staffed by community volunteers and are supported by staff.

For-Profit Projects

We are a for profit corporation chartered in the State of Texas. We teach the biblical principle of trading "something of value" in exchange for "something of value". We insist that every activity is profitable to every participant.

We insist on being productive ourselves and only help others who are helping themselves. We provide leadership and partnership to people who are doing the best they can.

You will truly serve your community because our programs bring real benefit to all those participating. Your relationship with the community will take the posture of publicity and advertising.

We do not ask anyone to "do something for nothing" our programs earn enough money pay all participants for their participation and pay expenses. You can "Make A Difference" by helping others to help themselves.

Co-Sponsor, Co-op Merchant or All American Team Member

Regardless of your posture in any of our programs we create a win-win-win environment, contact us today for more specific details.

Experience The All American Lifestyle

The All American Network provides its members with many different options for an active, exciting and fulfilling lifestyle.

The All American Network is open to every one and is dedicated to the possession and enjoyment of the American Dream.

The All American Network provides many weekly events and different activities year round in the areas of community wide excitement, fellowship and fun(while increasing your income). There is an activity that will excite you. Give us the opportunity to be a part of your life. The All American Network could be your ticket to a more satisfying and fulfilling life.

Lifestyle And The All American Network

When lifestyle began to gain wide currency a generation ago, a number of critics objected to it as vogueish and superficial, perhaps because it appeared to elevate habits of consumption, dress, and recreation to a primary basis of social classification. None the less as such, the word has won the occasionally grudging acceptance of 70 percent of the people who now accept the word where the economic context makes more apparent the need for a word that denotes categories based on consumption practices.

Lifestyle brings fulfillment and satisfaction, there needs to be a balance between the manner a person wants to live and the money and time it takes to provide for it.

The All American Network has programs that balance the time requirements between purely mercenary activities and the satisfying acts that give meaning to life.

We profit from doing good to others who have done good themselves.

All our programs generate advertising revenues, create publicity for our clients and candidates and add to the participants' income stream.

We do not believe in the looting process of giving and not receiving. We do believe that when we give correctly, we receive something of value in return.

It takes a balance of Money, Recognition and Lifestyle in the way we spend our time and money or we are never quite happy.

The All American Network invites you to look into our programs and determine if we deliver on the promises made. Trading something of value for something of value.

All American Network creates Money, Recognition and Lifestyle opportunities for its participants.

Money And The All American Network

Money is the way we keep score. There are different ways to gain possession of money, you can create it, earn it, beg for it or steal it.

There are many kinds of looters in America, people that take money and not give value for it. These people are **thieves**.

There are people that are never able to stand on their own, or produce anything of value to trade with others. These people are **beggars**.

There are people that can be productive when directed by others; their means of support or life is for someone else to create something that will let them trade their time for money. These people are **earners**.

Then there are the people who both invest their time and money and become professionals, or those who invest their money and time to create business or industry. These people are **leaders**.

All our programs operate under the concept that whatever one sows; he should expect to reap the fruits of his or her labor.

There are people who trade their investment of time, money and talent and demand a tangible return, the **All American Network**.

Networking With The All American Network

It takes a tremendous reserve of talent to achieve a community wide effect; therefore the All American Network is a network. We had a choice to either expend large amounts of capital to attract talent to follow our plan or to appeal to self-interest; we chose to appeal to the self-interest of individuals to lead.

We promise Money, so our programs generate money, money to own and money to use. A portion goes to the laborer and a portion to the projects.

We promise Recognition, so all our programs are done locally and very publicly. We are leading community projects and offering opportunities to profit to all participants.

Our programs give very measurable results; they are recognizable in the community where they are invested. The activities and actions are visible to the entire community.

We promise Lifestyle opportunities, our programs generate excitement, money and when completed, a sense of accomplishment.

Serving as the leaders in each community, we are able to focus attention to the people, programs and activities of All American Network.

Profiles Of Leadership And The All American Network

All American Network has a program designed to search, locate and publicize the local people who meet the criteria of “Leadership” in each local community.

The advance campaign of looking is done publicly to bring to the attention of the public that a search is going on and to give exposure to the profile of the individuals being sought.

The selection committee is made up of a cross section of the community insuring a true “Leader” in the minds of the community.

The Internet is used to let the general public in on the selection process.

A series of events are staged and produced to allow the “Leaders” to be celebrated publicly and to allow the public to get a first hand report on the qualities found in these selections.

A coffee table book is published as a self-liquidating premium for distribution into the homes. It is a who’s who of local people who have made a contribution to the community while pursuing personal goals.

We believe that it is the obligation of every individual or company to seek to be profitable.

We believe that character and courage is built through independence and initiative.

We believe that personal improvement is brought about through personal productivity.

We believe in developing a vision of the future and our part in protecting it.

We believe in a full personal exercise of the American Freedoms, Life, Liberty and the personal Pursuit Of Happiness.

We are the All American Network.

We swear to always strive to give something of value in exchange for something of value.

Recognition And The All American Network

Every one deserves recognition, to have something of value attached to your person; look at me, I exist, I am important.

The All American Network has committed itself to causing others to recognize and become aware of many different things; foremost is the value of individuals to the overall success of the planet, to cause others to recognize the efforts that are needed to create value.

Our opportunity is to profit from pointing people to things that add to the enjoyment of Life, Liberty and the Pursuit of Happiness.

There are options available to every purpose; it is our opportunity to point to those options that bring the most benefit to all participants.

There are ways to have all that I want from life by adding to it, not subtracting from it. There are options for enjoying the present while preserving the future. These are the goals of the All American Network.

Headlines are always on the vilest of our fellow citizens in the world, the criminals, the depraved, the violent and the looters.

We feel that it is time to recognize those who create things that are profitable to the individual as well as the community. All our programs create recognition for the participants; they are public searches and public celebrations of finding the best among us.

Are You Searching?

Like me, many of you are very busy and feel that you have no more time for anything, but you are still searching for something. Something is missing in your daily life, something important. Something that will complete you.

You, like me, feel that there is something somewhere that will give you that feeling of total satisfaction, inner peace and freedom, something that will give you the power to rise above the problems of life. Are you sick and tired of feeling sick and tired?

Like me, you are probably tired of being herded like cattle each day to places that are not really of your choosing. Your job takes up more time than anything else and you see no freedom in your future. Freedom to be yourself, freedom to follow your dream, freedom from all the time restrictions, freedom from conformity, free to live your life as you truly wish.

Like me, you would like the respect of your family, your friends, and your associates for just being yourself. Like me, you are tired of feeling judged for your uniqueness, for your thought processes that take you outside the box.

Are you still searching for fellowship with freedom, are you still searching to build your faith upon truth and liberty. Are you still searching for a place to hear words that build your personal faith and give you the power to be free? Are you still searching for a place where fellowship is by choice, not by conformity? Are you searching for a current day reality?

All American Network

by Jerry D. Hill

Are you still searching for a way for your faith to be productive without compromising your personal ideals?

Are you still searching for a way to hear faith building words that accept you as an individual and assist you in your personal pursuit of happiness?

We are patriotic Americans, free to let others be free, not threatened by others different from us because we know they are here as a part of this body, to help us grow.

Are you still searching for positive reinforcement from faith based teaching and exhortation. Body Building the way it should be, built upon liberty and freedom, not conformity and fear.

Are you still searching for a more fulfilling life, not just words, but actions and activities that benefit you personally.

Like me, you may be willing to keep searching for that elusive freedom. If so, the All American Network may be a good place to start. The All American Network provides an environment based upon the principles of truth and freedom.

We are told to “Let your light shine so that men will see your good works and glorify your Father.” What good works are you involved in currently? Things that men see? Would you like a few options? Would you like fellowship around these community options?

We, the team members, of the All American Network, are patriotic Americans, free to let others be free, not personally threatened by differences. We seeking others to help us help us grow and expand our capabilities and influence. We are searching to reestablish community by self help programs built upon faith.
