PPWR Supplier Declaration Supplier Declaration of Conformity with Packaging and Packaging Waste Regulations EU 2025/40 (PPWR)

To the best of our knowledge, based on consultation with our suppliers and our internal quality control procedures, we can confirm that packaging product(s) supplied by us, including all materials, additives, coatings and inks fully comply with the PPWR requirements of the EU Packaging and Packaging Waste Regulations (EU) 2025/40 (PPWR).

Specifically:

Restricted Substances

The packaging used does not intentionally contain any banned or restricted substances (beyond allowable thresholds) as set out under the PPWR regulation (EU) 2025/40 and other relevant EU regulations which apply to packaging, including, but not limited to, REACH Regulation (EC) No 1907/2006 and the Persistent Organic Pollutants (POP) Regulation (EU) 2019/1021.

Heavy Metals

The sum concentration of the following heavy metals does not exceed 100 mg/kg (100 ppm): Lead (Pb), Cadmium (Cd), Mercury (Hg) and Hexavalent Chromium (Cr⁶⁺).

PFAS

No PFAS (Per- and polyfluoroalkyl substances), BPA or other Bisphenols have been added to the packaging products, and their presence does not exceed allowable thresholds.

Recycled Content

The minimum recycled content is declared for each packaging product we purchase, and information is stored and maintained regularly by ourselves. For general overview, please see below appendix.

Validity

This declaration is valid unless the material composition or manufacturing process changes, including but not limited to supplier or raw material source changes, or applicable regulations being amended. We commit to proactively informing customers on any changes that may affect ongoing compliance with the PPWR including working towards the requirements which come into effect in 2028, 2030 and beyond.
