

GET READY TO SAVE WATER WITH HYDRALOOP

Key steps for successful operation of your system

GET YOUR BUILDING WATER RECYCLE READY

Make sure your contractor or plumber uses the Recycle Ready Guide to prepare your building for decentral greywater recycling

SET THE DELIVERY AND INSTALLATION DATE(S)

Your Hydraloop Partner contacts you to set the delivery and installation date(s) of the system. Keep an eye on your email inbox!

SIGN OFF THE RECYCLE READY CHECKLIST

Together with your plumber, you sign off the Recycle Ready Checklist and send it to your Hydraloop Partner. Don't forget to add photos!

CONFIRM THE INSTALLATION DATE

Your Hydraloop Partner contacts you to coordinate the installation date. Make sure you're in the building before and during the installation.

START THE HYDRALOOP APP

During installation, you install the Hydraloop App on your phone and sign the Warranty Certificate.

START RECYCLING WATER

After installation, the Hydraloop system needs 21 days to build the MBBR bioreactor. But you can start using the system immediately.
