

## **Why You Should Get the Kangen Water Machine**

One of the major health benefits of Kangen is the alkaline ionized water it produces, also known as Electrolyzed Reduced Water/EWR (a quick google search and additional searched on Pubmed will show studies on the life changing benefits of EWR).

This medical grade ionized water can destroy and/or inhibit the growth of cancer cells and inhibit the formation of new cancers in the body. This ability has been demonstrated in several studies, with more and more evidence showing that electrolyzed reduced waters are health beneficial, and suppress oxidative stress related diseases such as diabetes, cancers, arteriosclerosis, neurodegenerative diseases, and the side effects of hemodialysis for example.

For a little background, oxidative stress in the body is a main cause of disease, and the hydrogen molecules in this water reduce that oxidative stress which can overall reduce illness and create a more alkaline environment for our cells and bodies to thrive.

This water promotes immune health which is so important in a cancerous environment. Then the water's ability to oxygenate the body, cells, organs, and mitochondria has been a game changer for cancer patients! Where there is oxygen, dis-ease cannot live. When you create an environment for your body to heal itself, miracles begin to happen.

Kangen Water is recommended by many world class doctors and surgeons, and today we're seeing more and more Kangen machines being used in doctor's offices around the world, along with multiple hospitals in Japan for treatment of cancer, heart disease, brain dysfunctions, diabetes, gangrene, and eczema, to name a few! Kangen is the only medically approved ionizer in the world with numerous awards, gold seals, and certifications for water quality, superior equipment, and the only ionizer that Dr Robert G. Wright, the founder of the American Anti-Cancer Institute recommends to his patients. He's tested and trialed all the ionizers and waters out there, and this is the one that is working.

It's become a popular opinion across Kangen water drinkers that it has helped them with recovery time and detoxing for chemo and cancer treatments as it lessens the side effects of chemo!

There's loads of science, studies, research, and testimonials on this water alone but also with cancer! Attached is a little of everything, but all items here contain cancer info. There are links for testimonials and studies + articles, and then some attached documents. The documents are mostly all searchable if you prefer to look for keywords, but the science behind it all is so fascinating to learn!
