BIOGRAPHY

Bryant Stone, PhD, is a **Licensed Clinical Psychologist** with extensive expertise in substance use disorders. Dr. Stone has demonstrated significant academic prowess through **40+ peer-reviewed publications**, multiple awards, several teaching positions, three editorial board positions, and service as a reviewer at 25 internationally recognized journals. He has secured **over \$250,000 in funding**, including the Dissertation Research Fellowship and two National Institute of Health fellowships (T32 and F32). Dr. Stone has extensive training across **clinical settings**, including **residential, inpatient, outpatient, community mental health, academic medicine, and student services**, with expertise in evidence-based treatments and psychological assessments.

Dr. Stone leverages his comprehensive expertise and passion for direct patient care in his clinical work. With a diverse therapeutic toolkit spanning **multiple treatment modalities**, he is driven to provide personalized, culturally sensitive, and adaptive care that precisely meets each patient's needs. His research background enables him to implement **the most current, evidence-based interventions** and assessments while remaining committed to individual patient outcomes. Dr. Stone is motivated by the profound reward of **one-on-one connection**—the meaningful interactions that allow him to support individuals through their mental health journeys. His approach combines **rigorous scientific understanding**, a deeply humanistic interpersonal style, and a broad toolkit to tailor care to each patient's needs, circumstances, and goals.
