

CASE STUDY

This Mother & Daughter Team wanted to surprise their Daddy with an updated AV System for His Birthday.

OBJECTIVES

This family had two areas they wanted to add updated AV System Components. Specifically, two TV's and two soundbars. The man of the house had a birthday coming up on Friday. With limited time and budget, we set out to provide our custom AV Experience.

SOLUTIONS

The ladies selected the 50" Class TU8000 Crystal 4K Smart TV from Samsung; Rated best in class at the time, it provides crystal clear colors that are fine-tuned to deliver a naturally crisp and vivid picture.

Each display was wall mounted using our Low Profile Pro AV tilting mount.

MIX & MATCH

For the audio we utilized the VIZIO M-Series All-in-One Premium Sound Bar with Dolby Audio, Bluetooth. Given the small spaces this sound bar offered best sound at an exceptional good price, allowing us to remain on budget.

AT A GLANCE

Challenges

- Small Spaces
- Urgent request
- Wanted Smart Control
- Small Budget

Benefits

- Direct Cost: \$2,096.03
- Vibrant, stunning 4K UHD screen, using the Universal Guide to surf smoothly and select content. Everything you watch is automatically upscaled into 4K for stunningly vivid color and detail.
- Crystal clear colors that are fine-tuned to deliver a naturally crisp and vivid picture.

Chris is incredibly professional and knowledgeable. He listens to your needs and concerns and helps you make the best decision for you. He worked with our schedule, even when it changed last minute, and was able to get the job done in time to surprise my father. I would recommend anyone who wants a job done right to call SpaceCoast AV Consultants!
